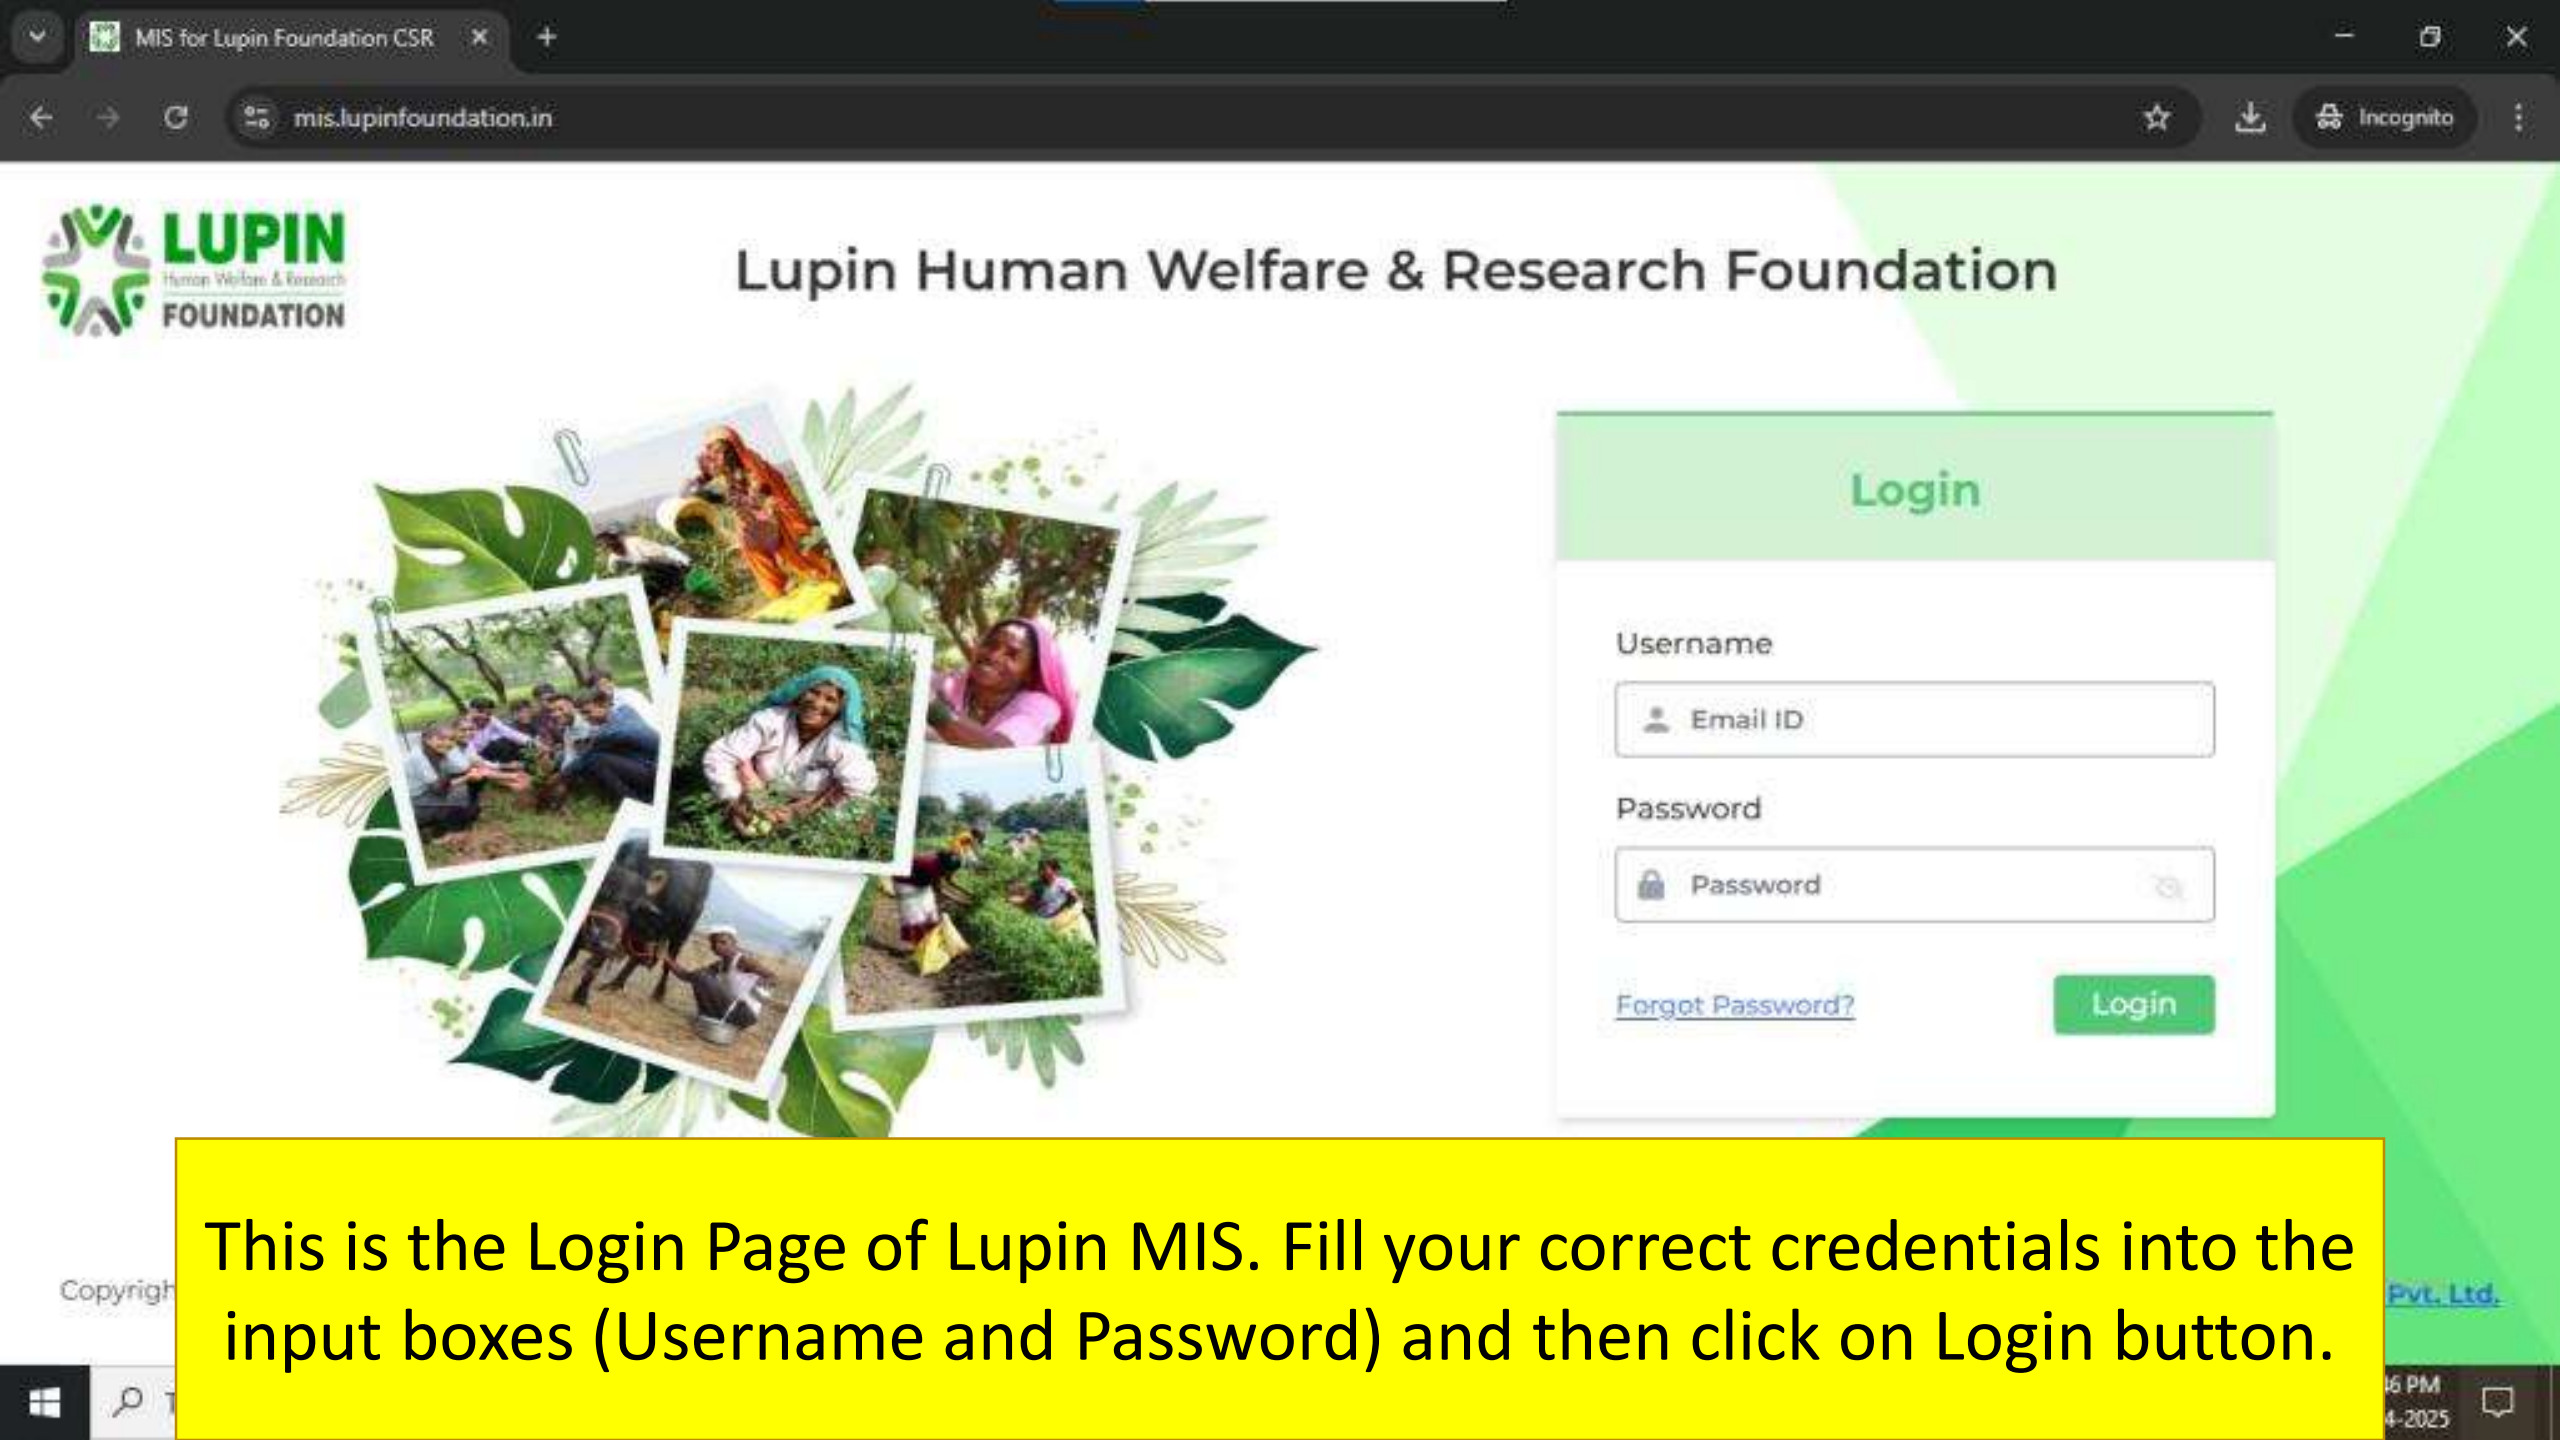
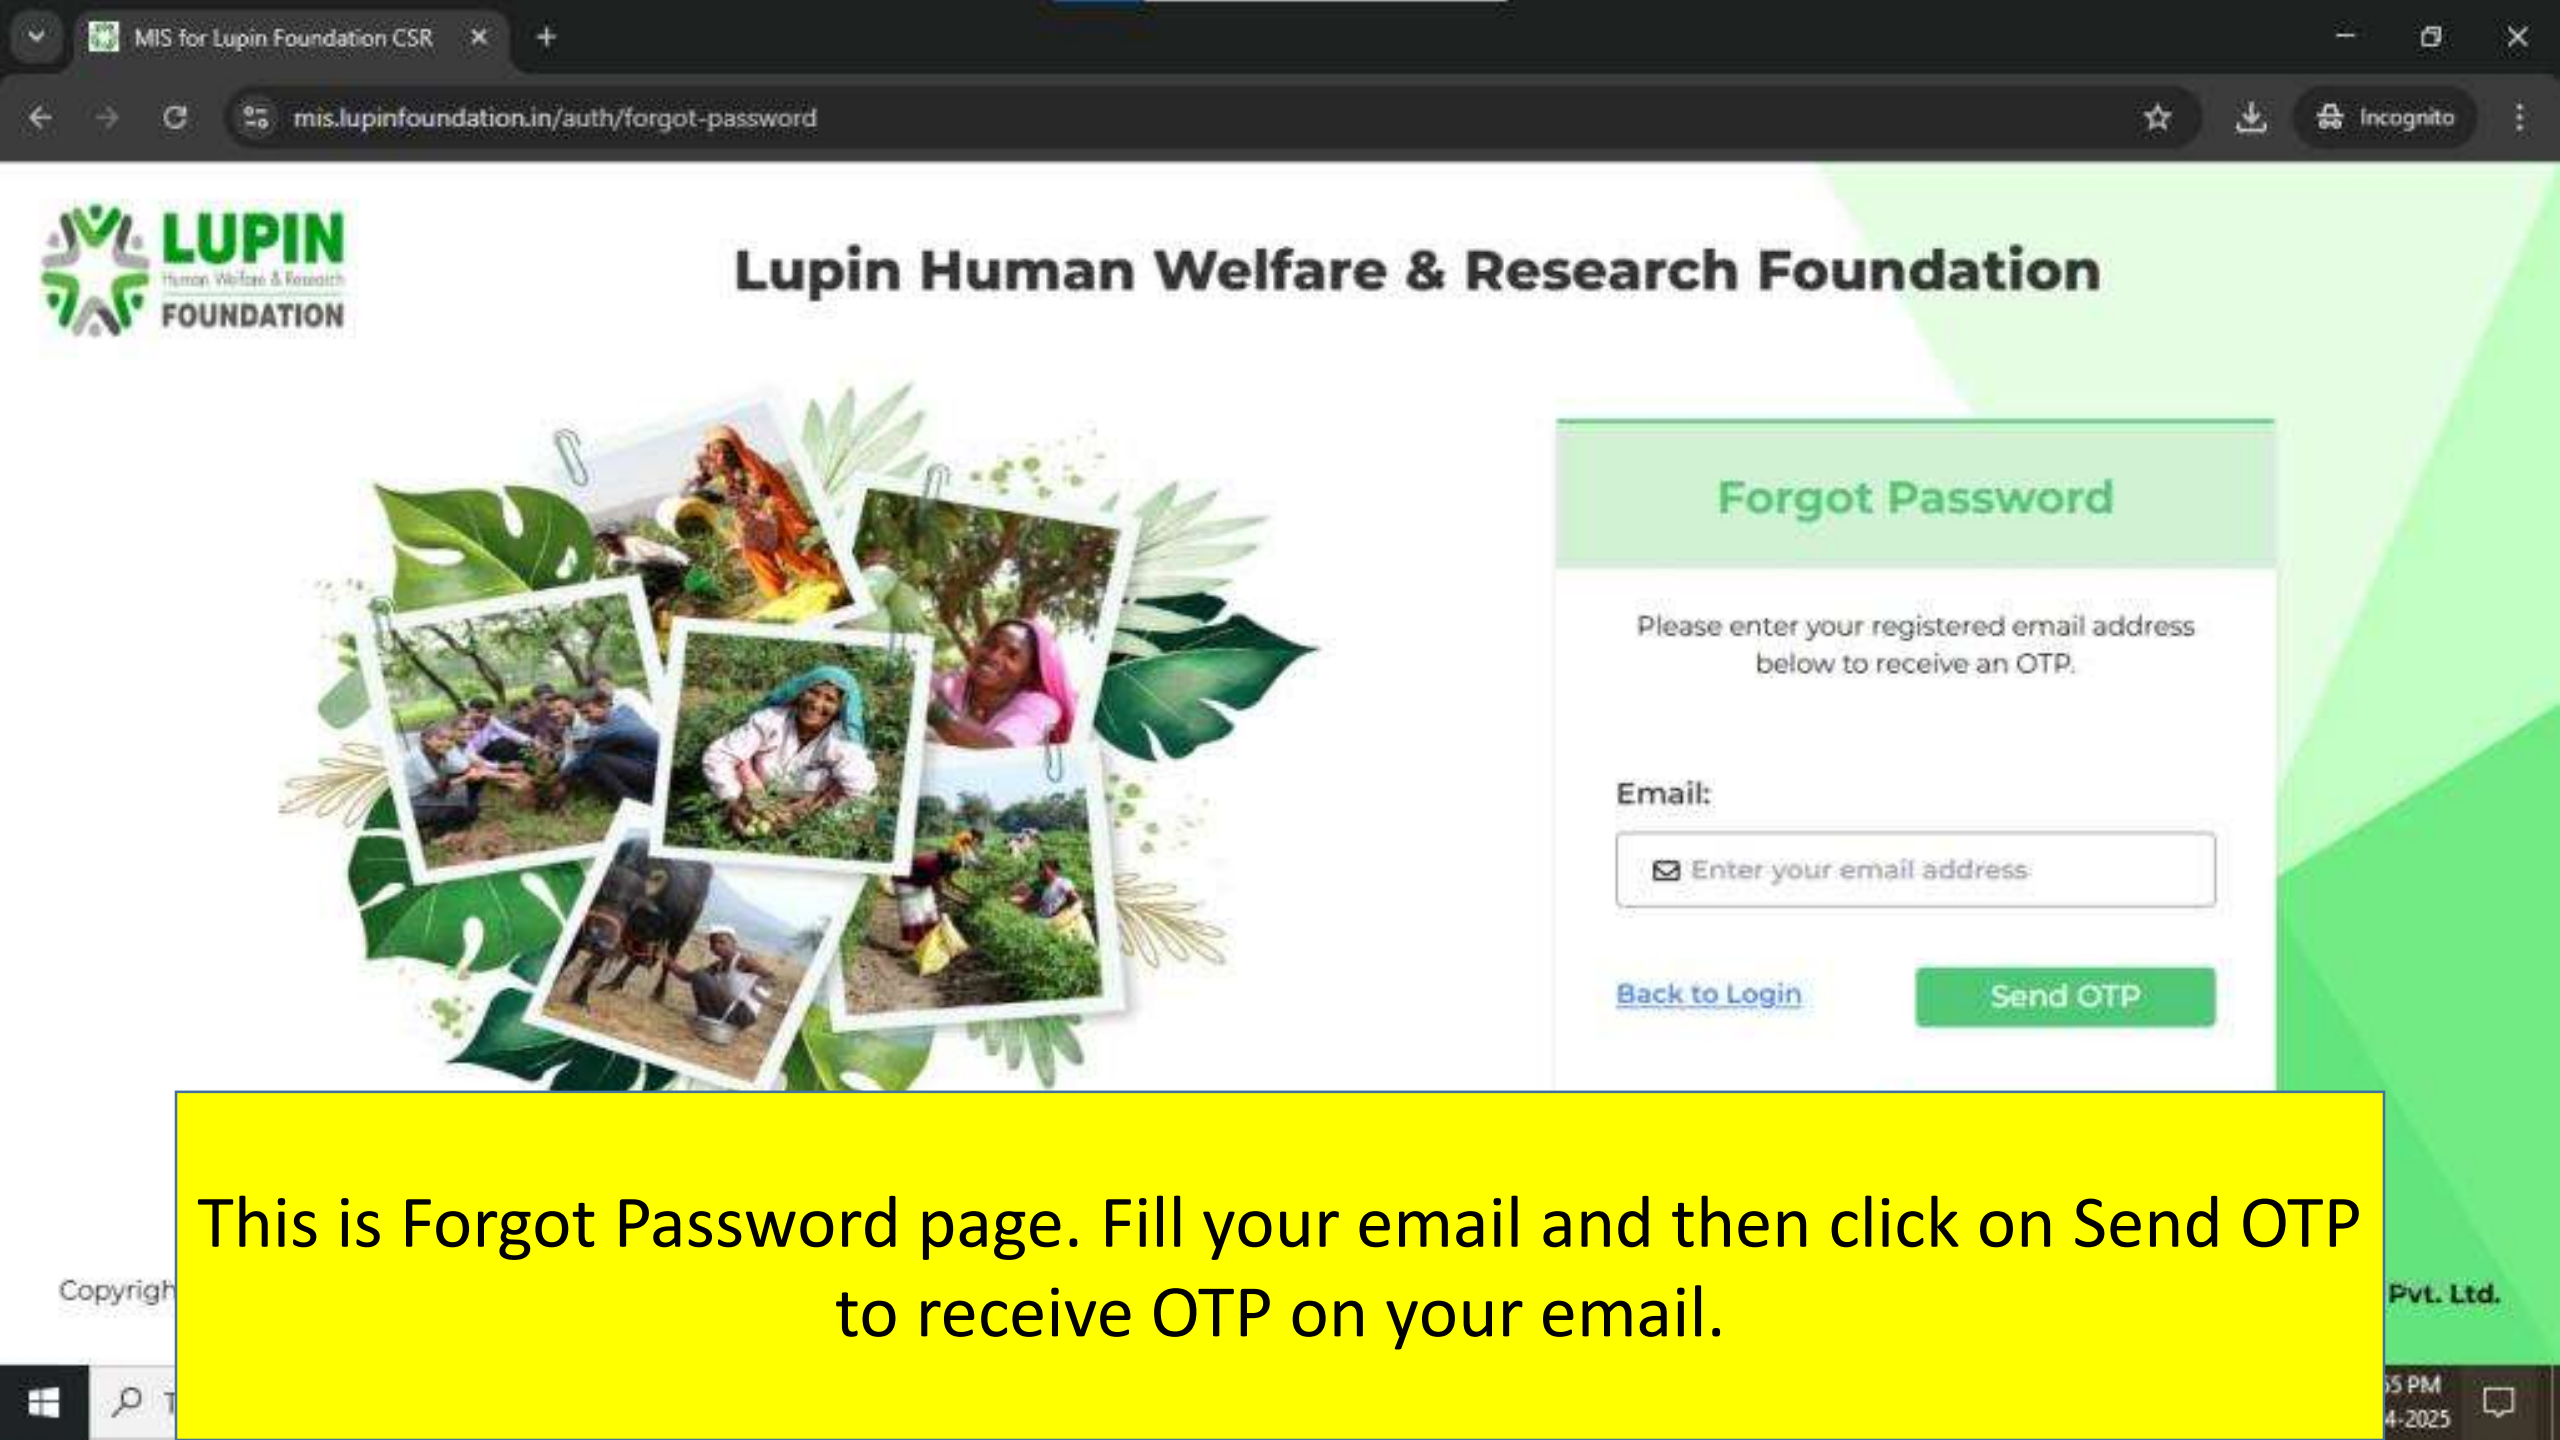
OPERATION MANUAL

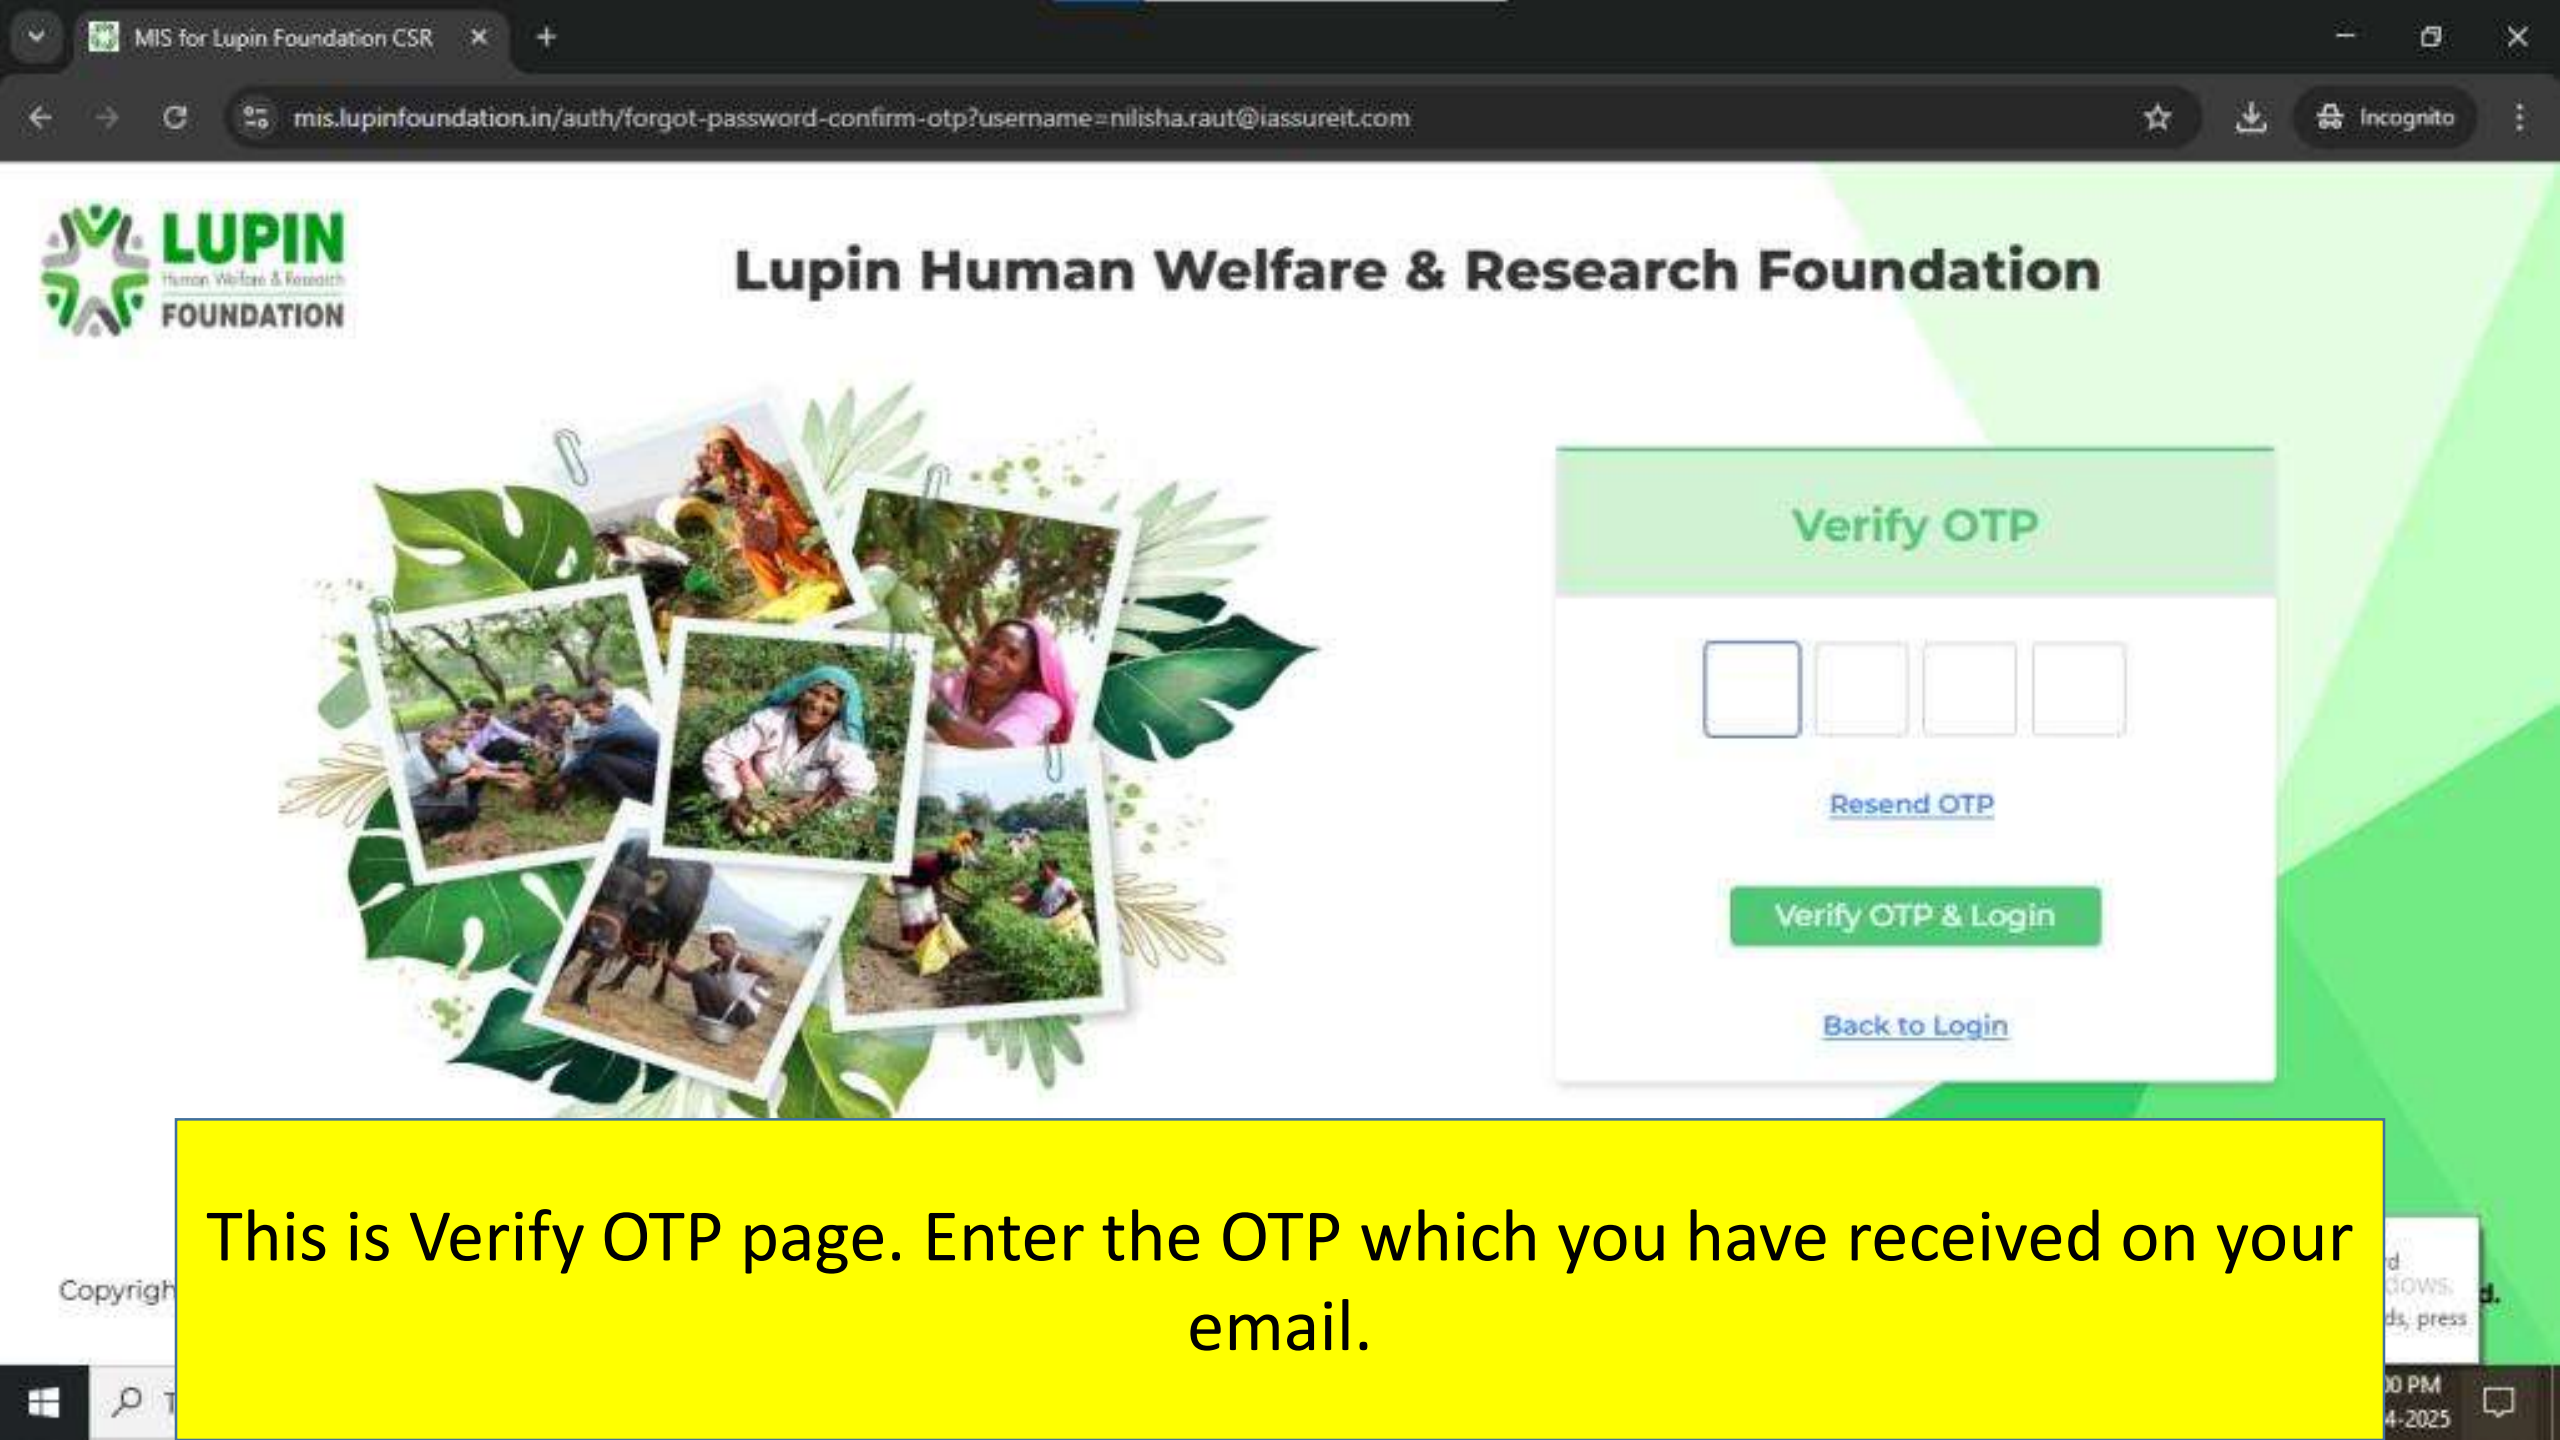
System Security



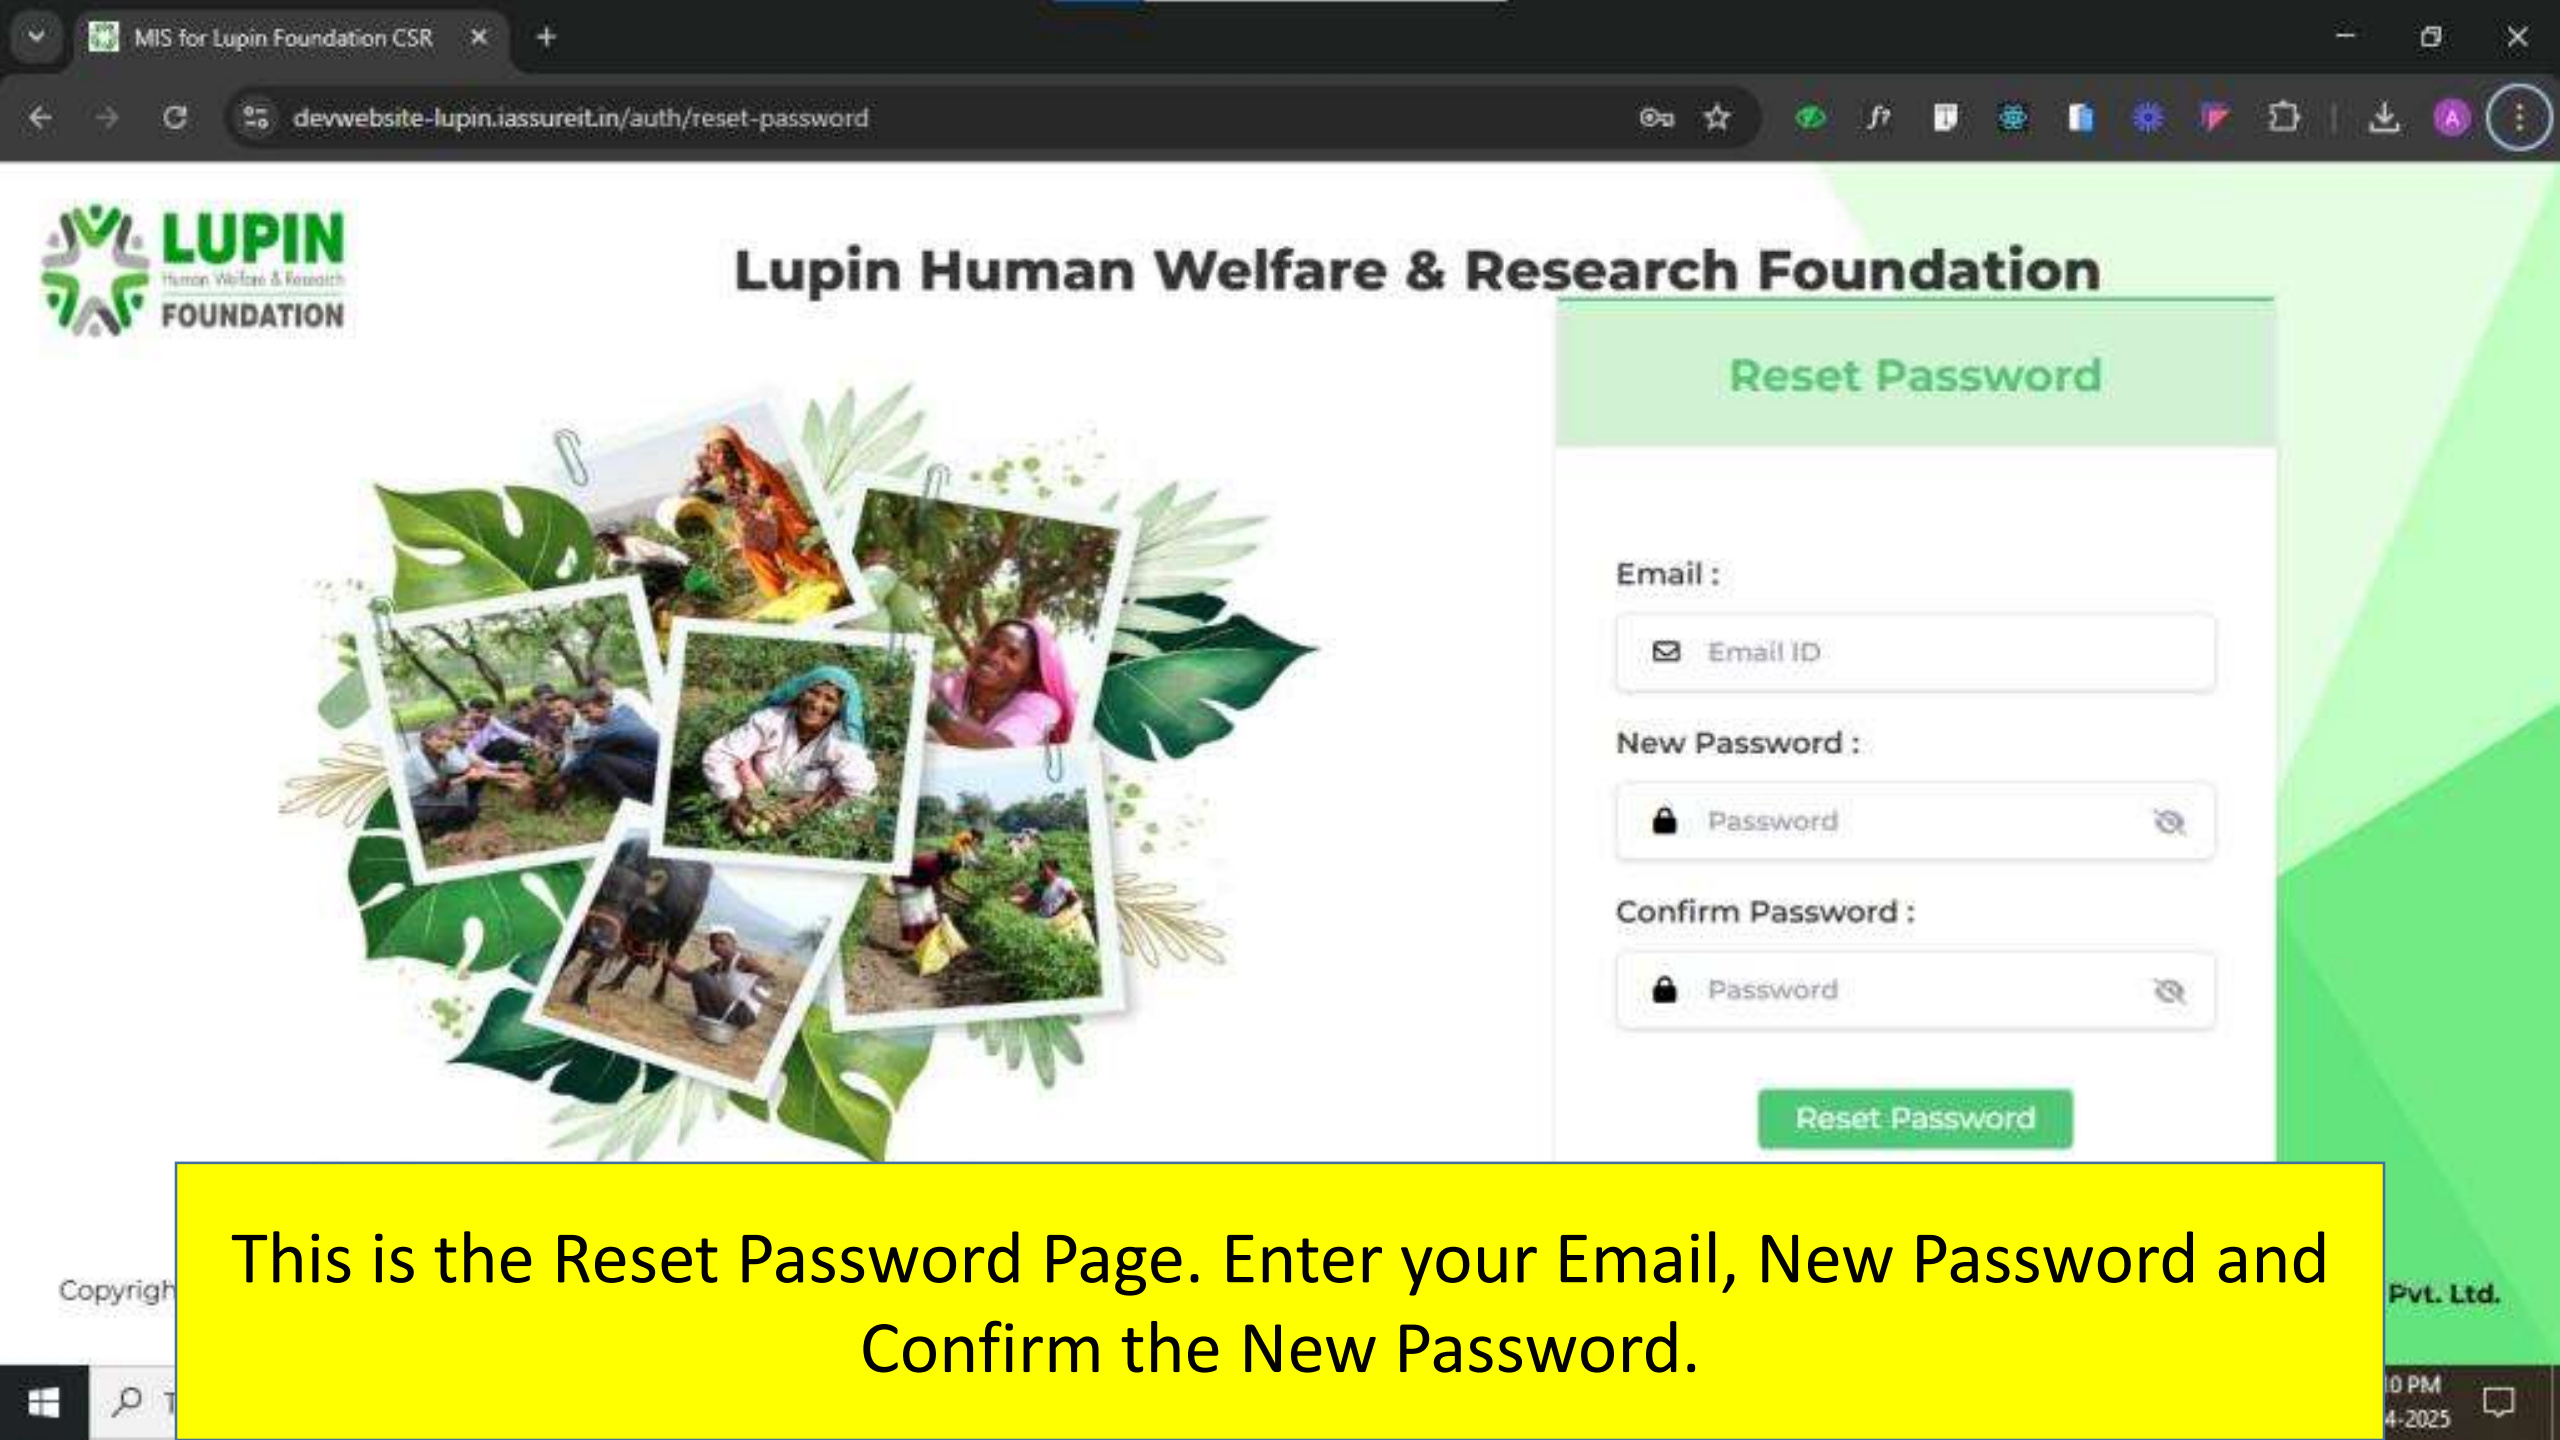
This is the Login Page of Lupin MIS. Fill your correct credentials into the input boxes (Username and Password) and then click on Login button.



This is Forgot Password page. Fill your email and then click on Send OTP to receive OTP on your email.

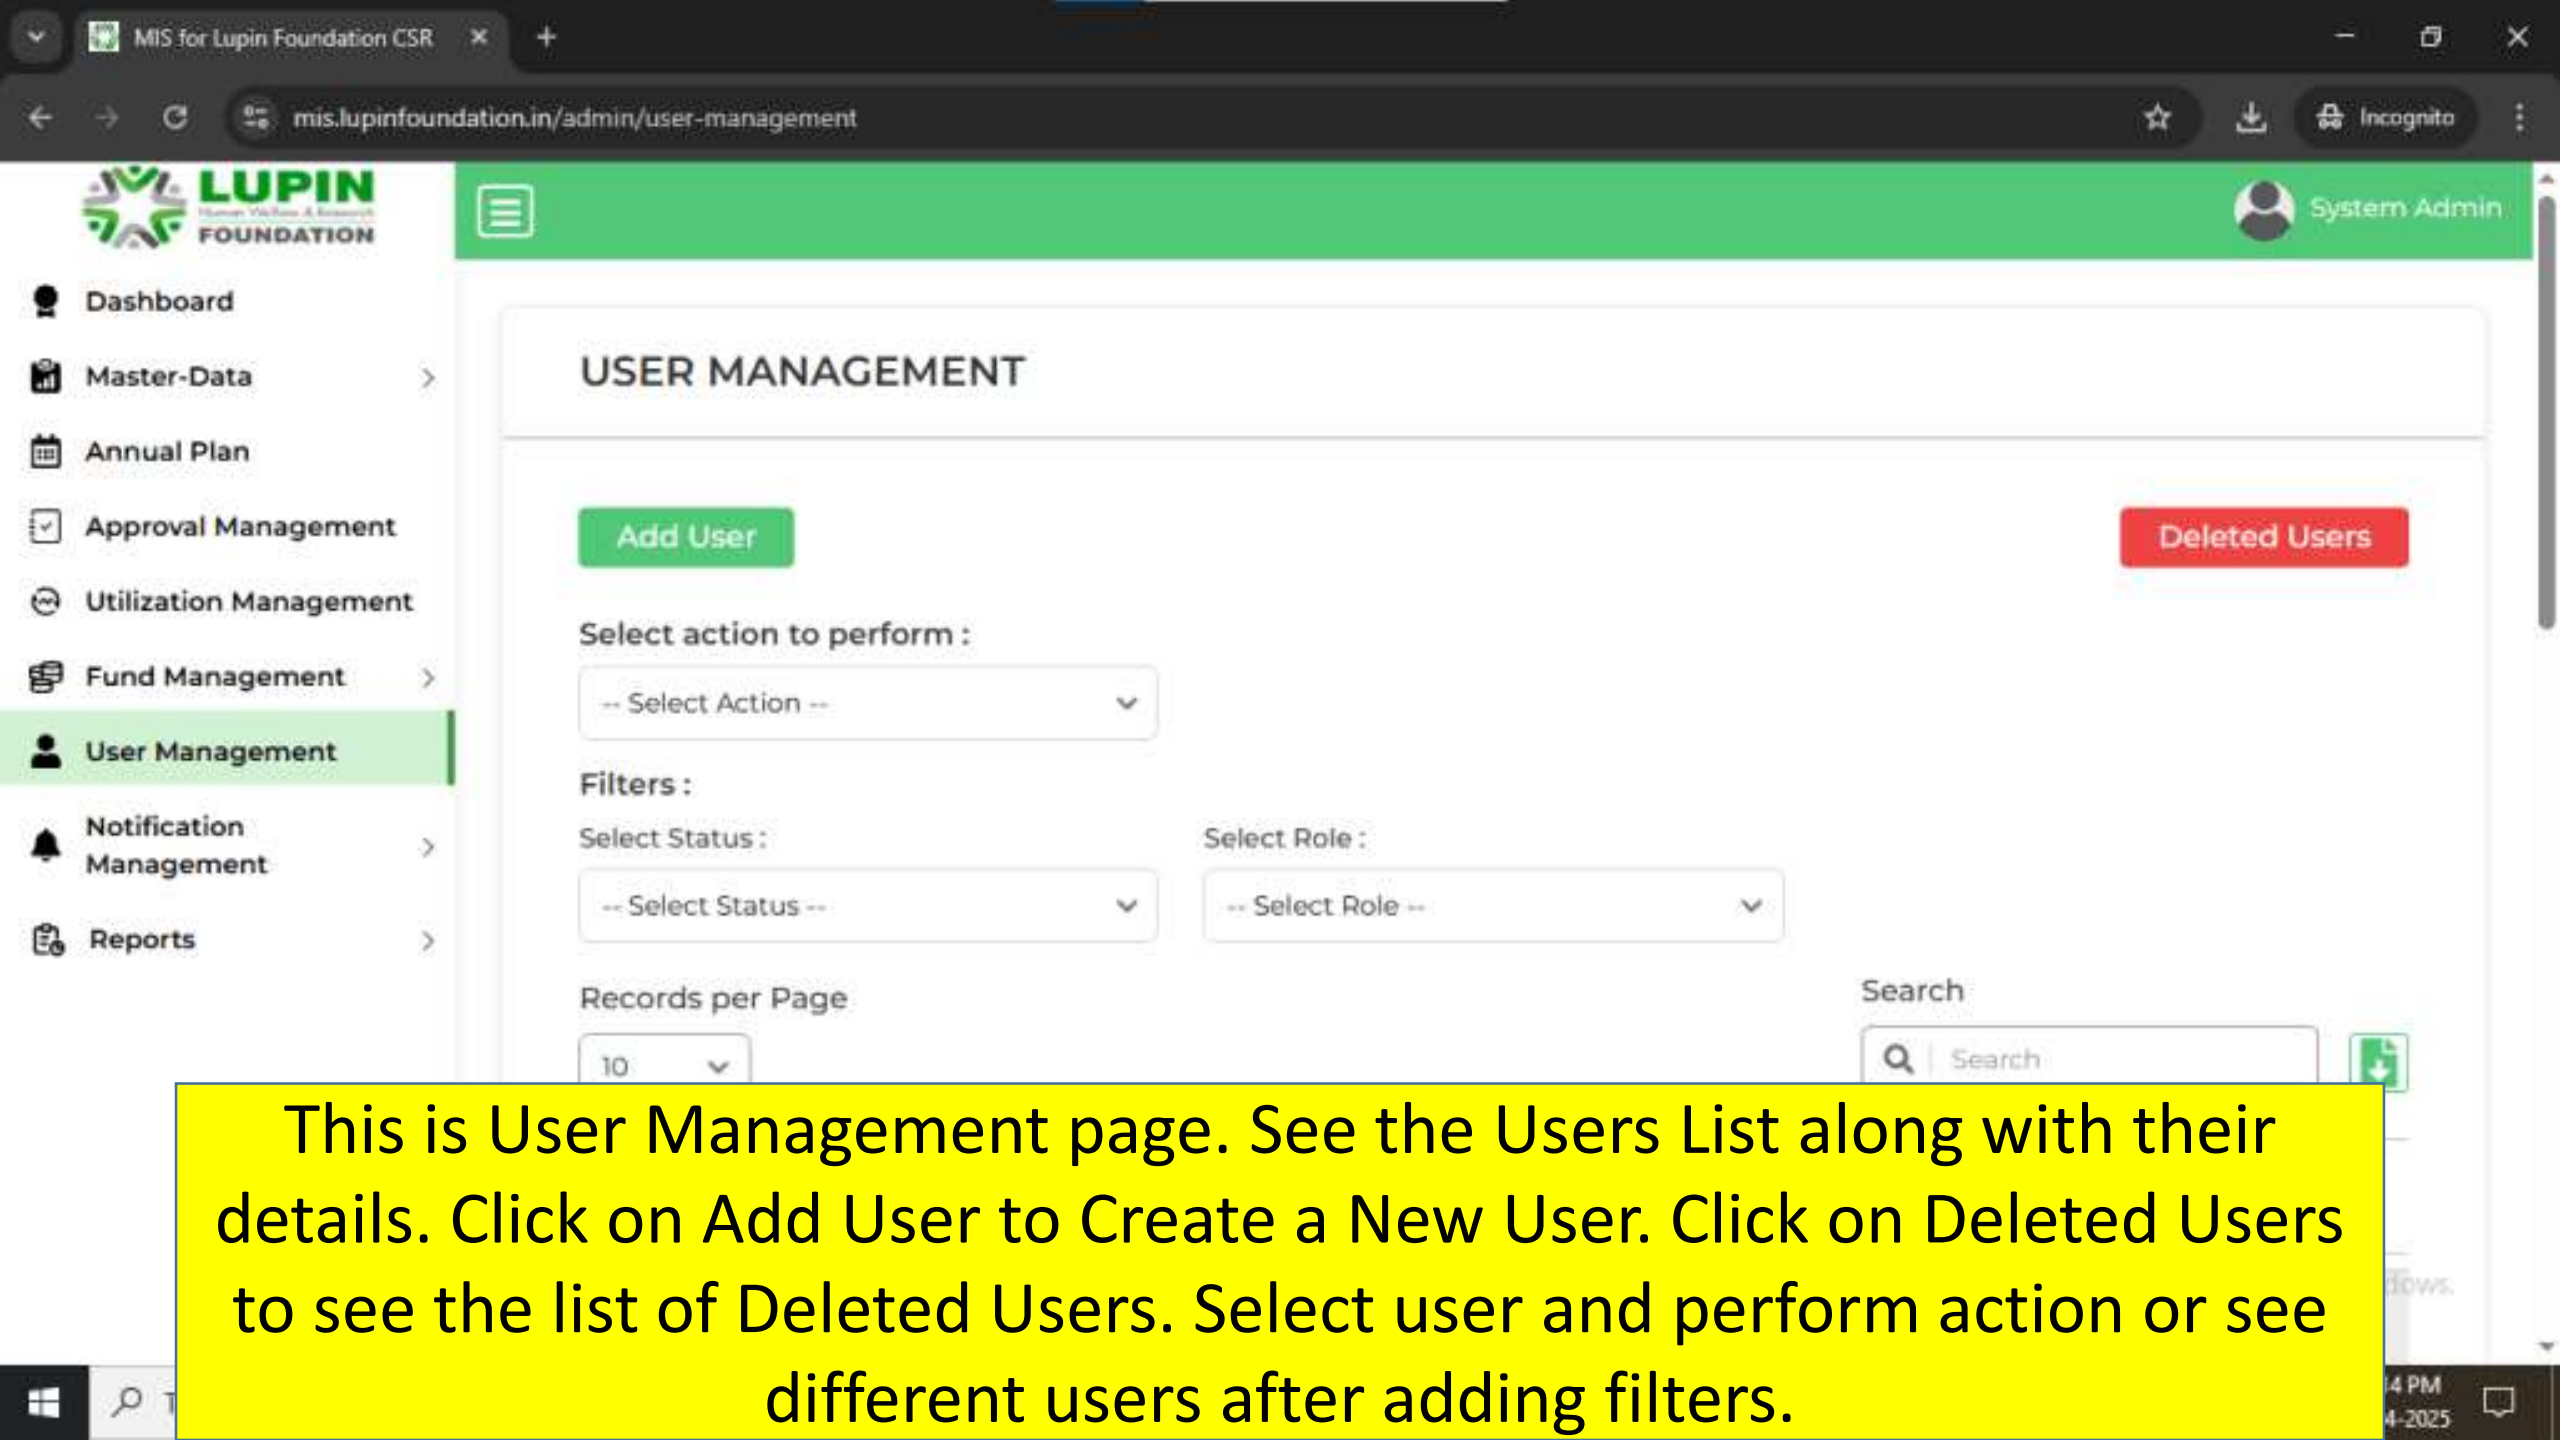


This is Verify OTP page. Enter the OTP which you have received on your email.

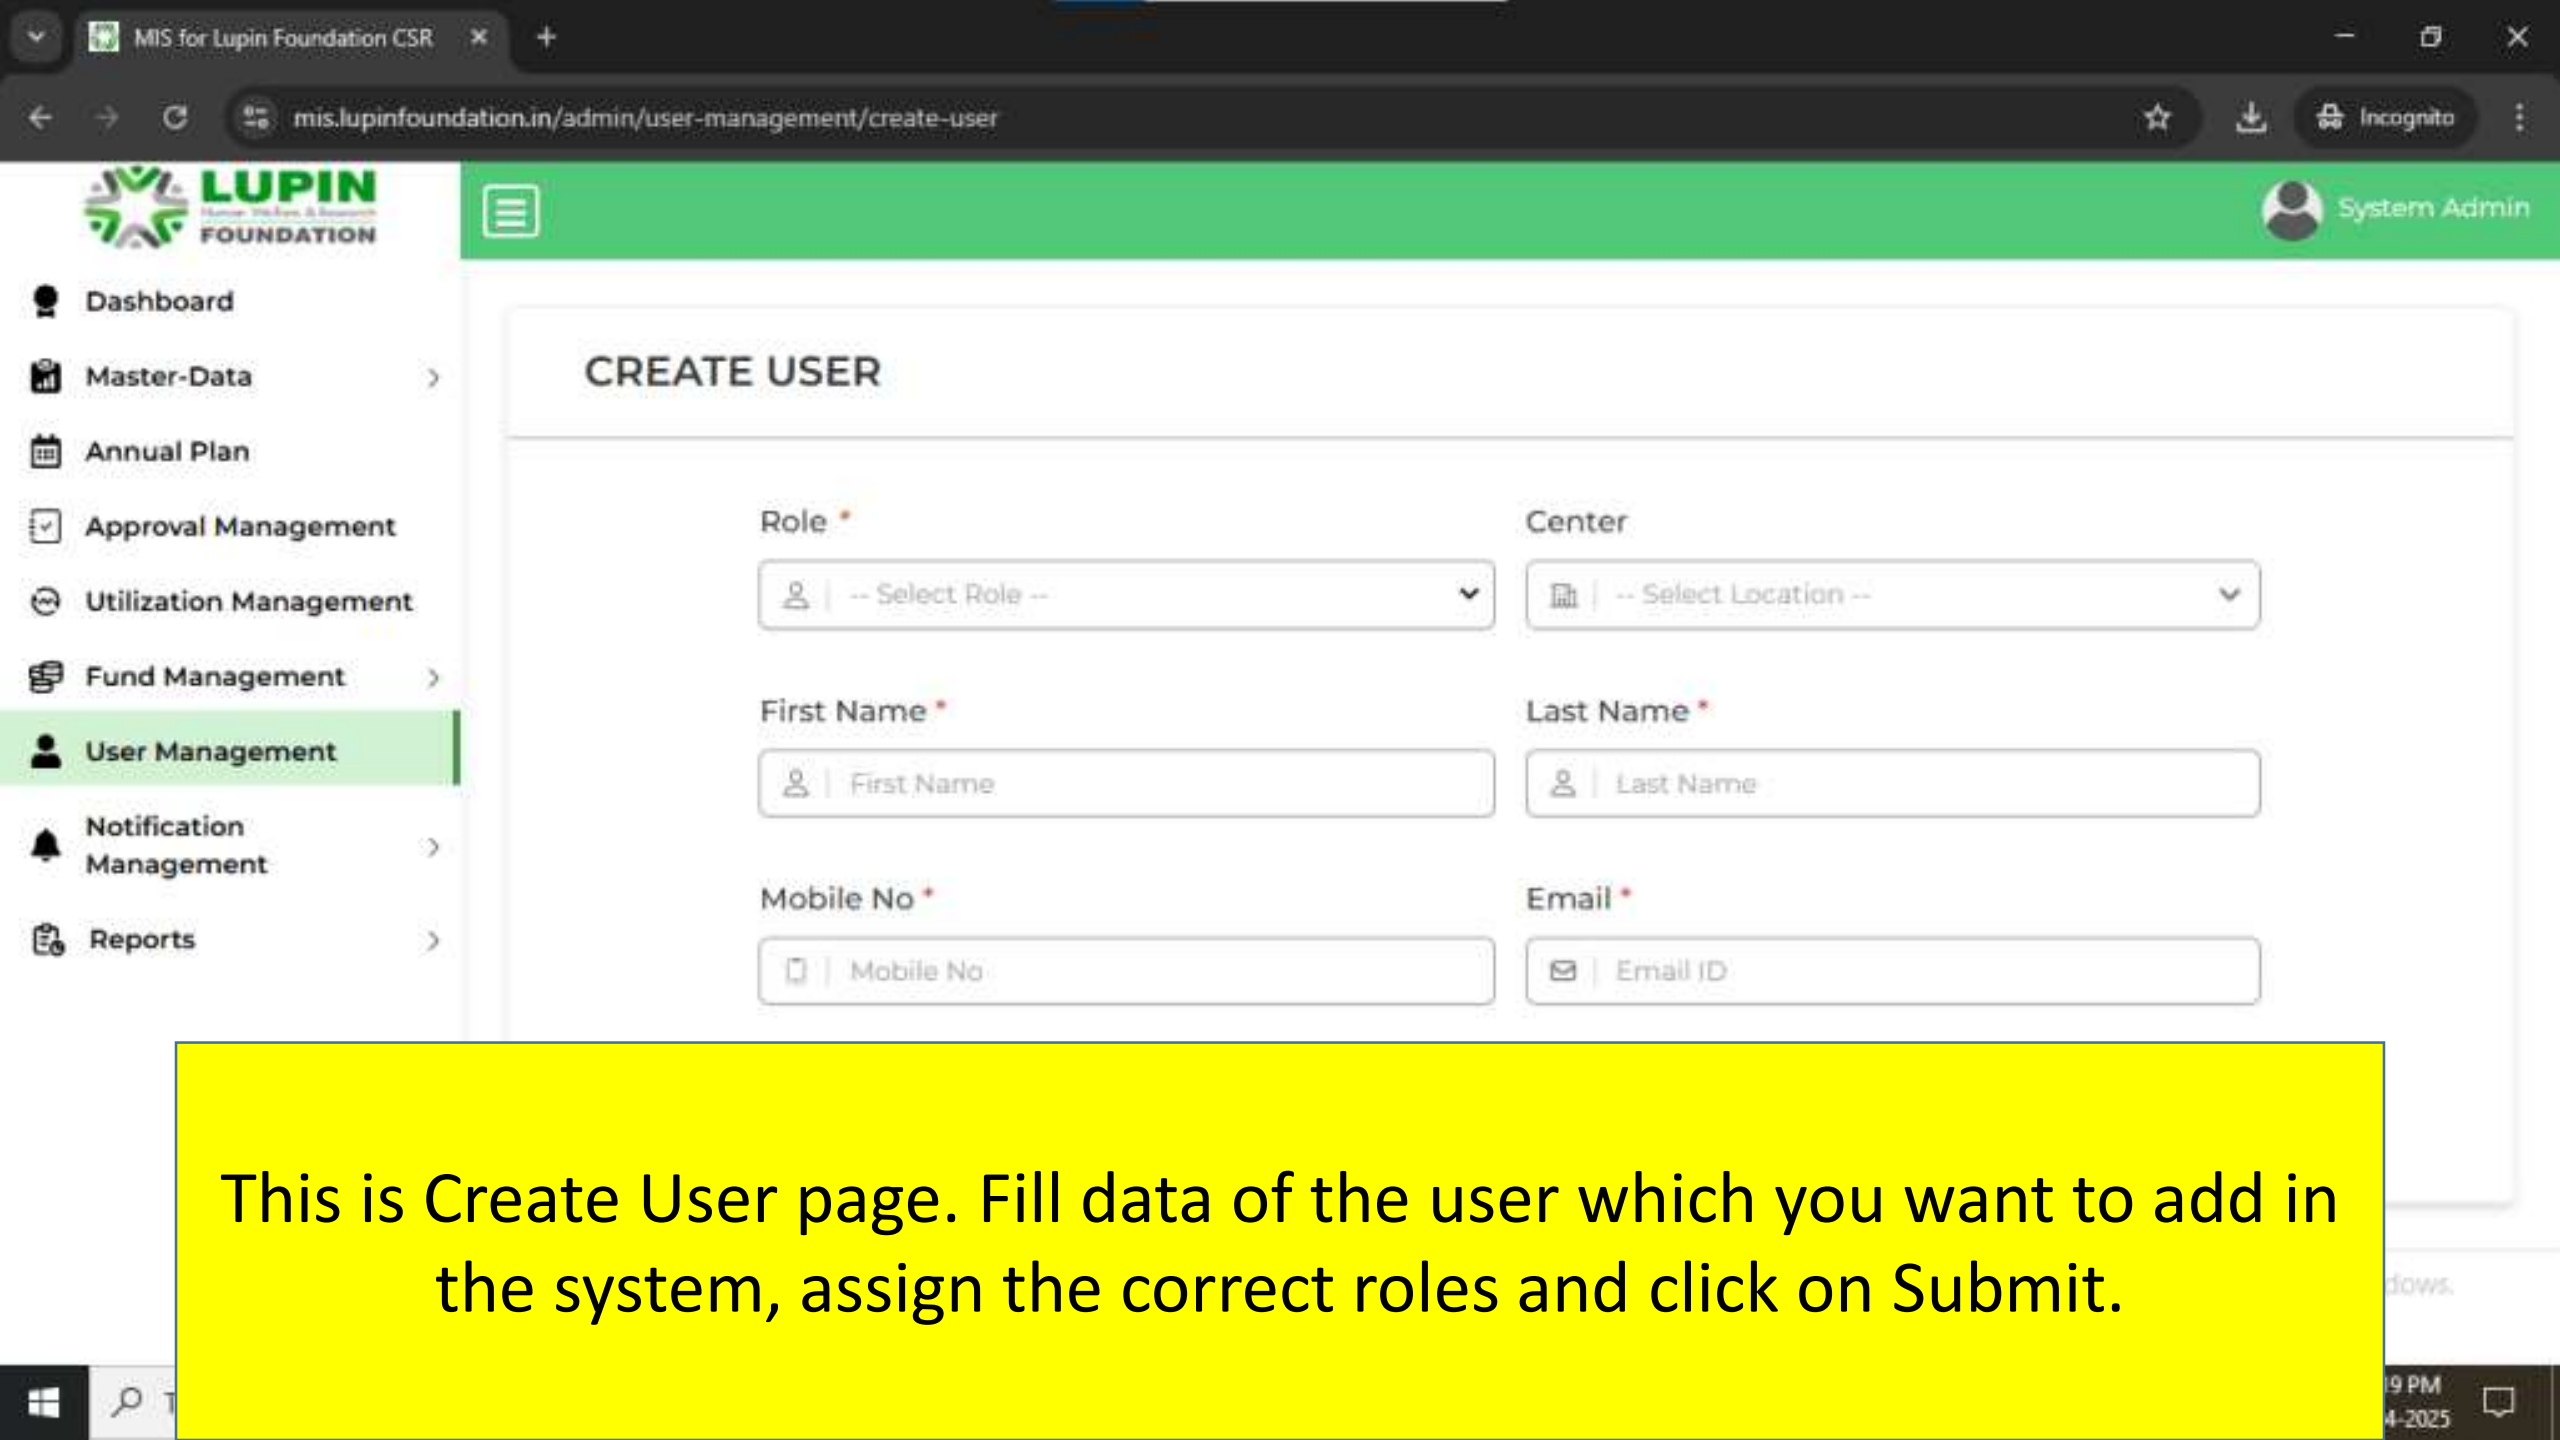


This is the Reset Password Page. Enter your Email, New Password and Confirm the New Password.

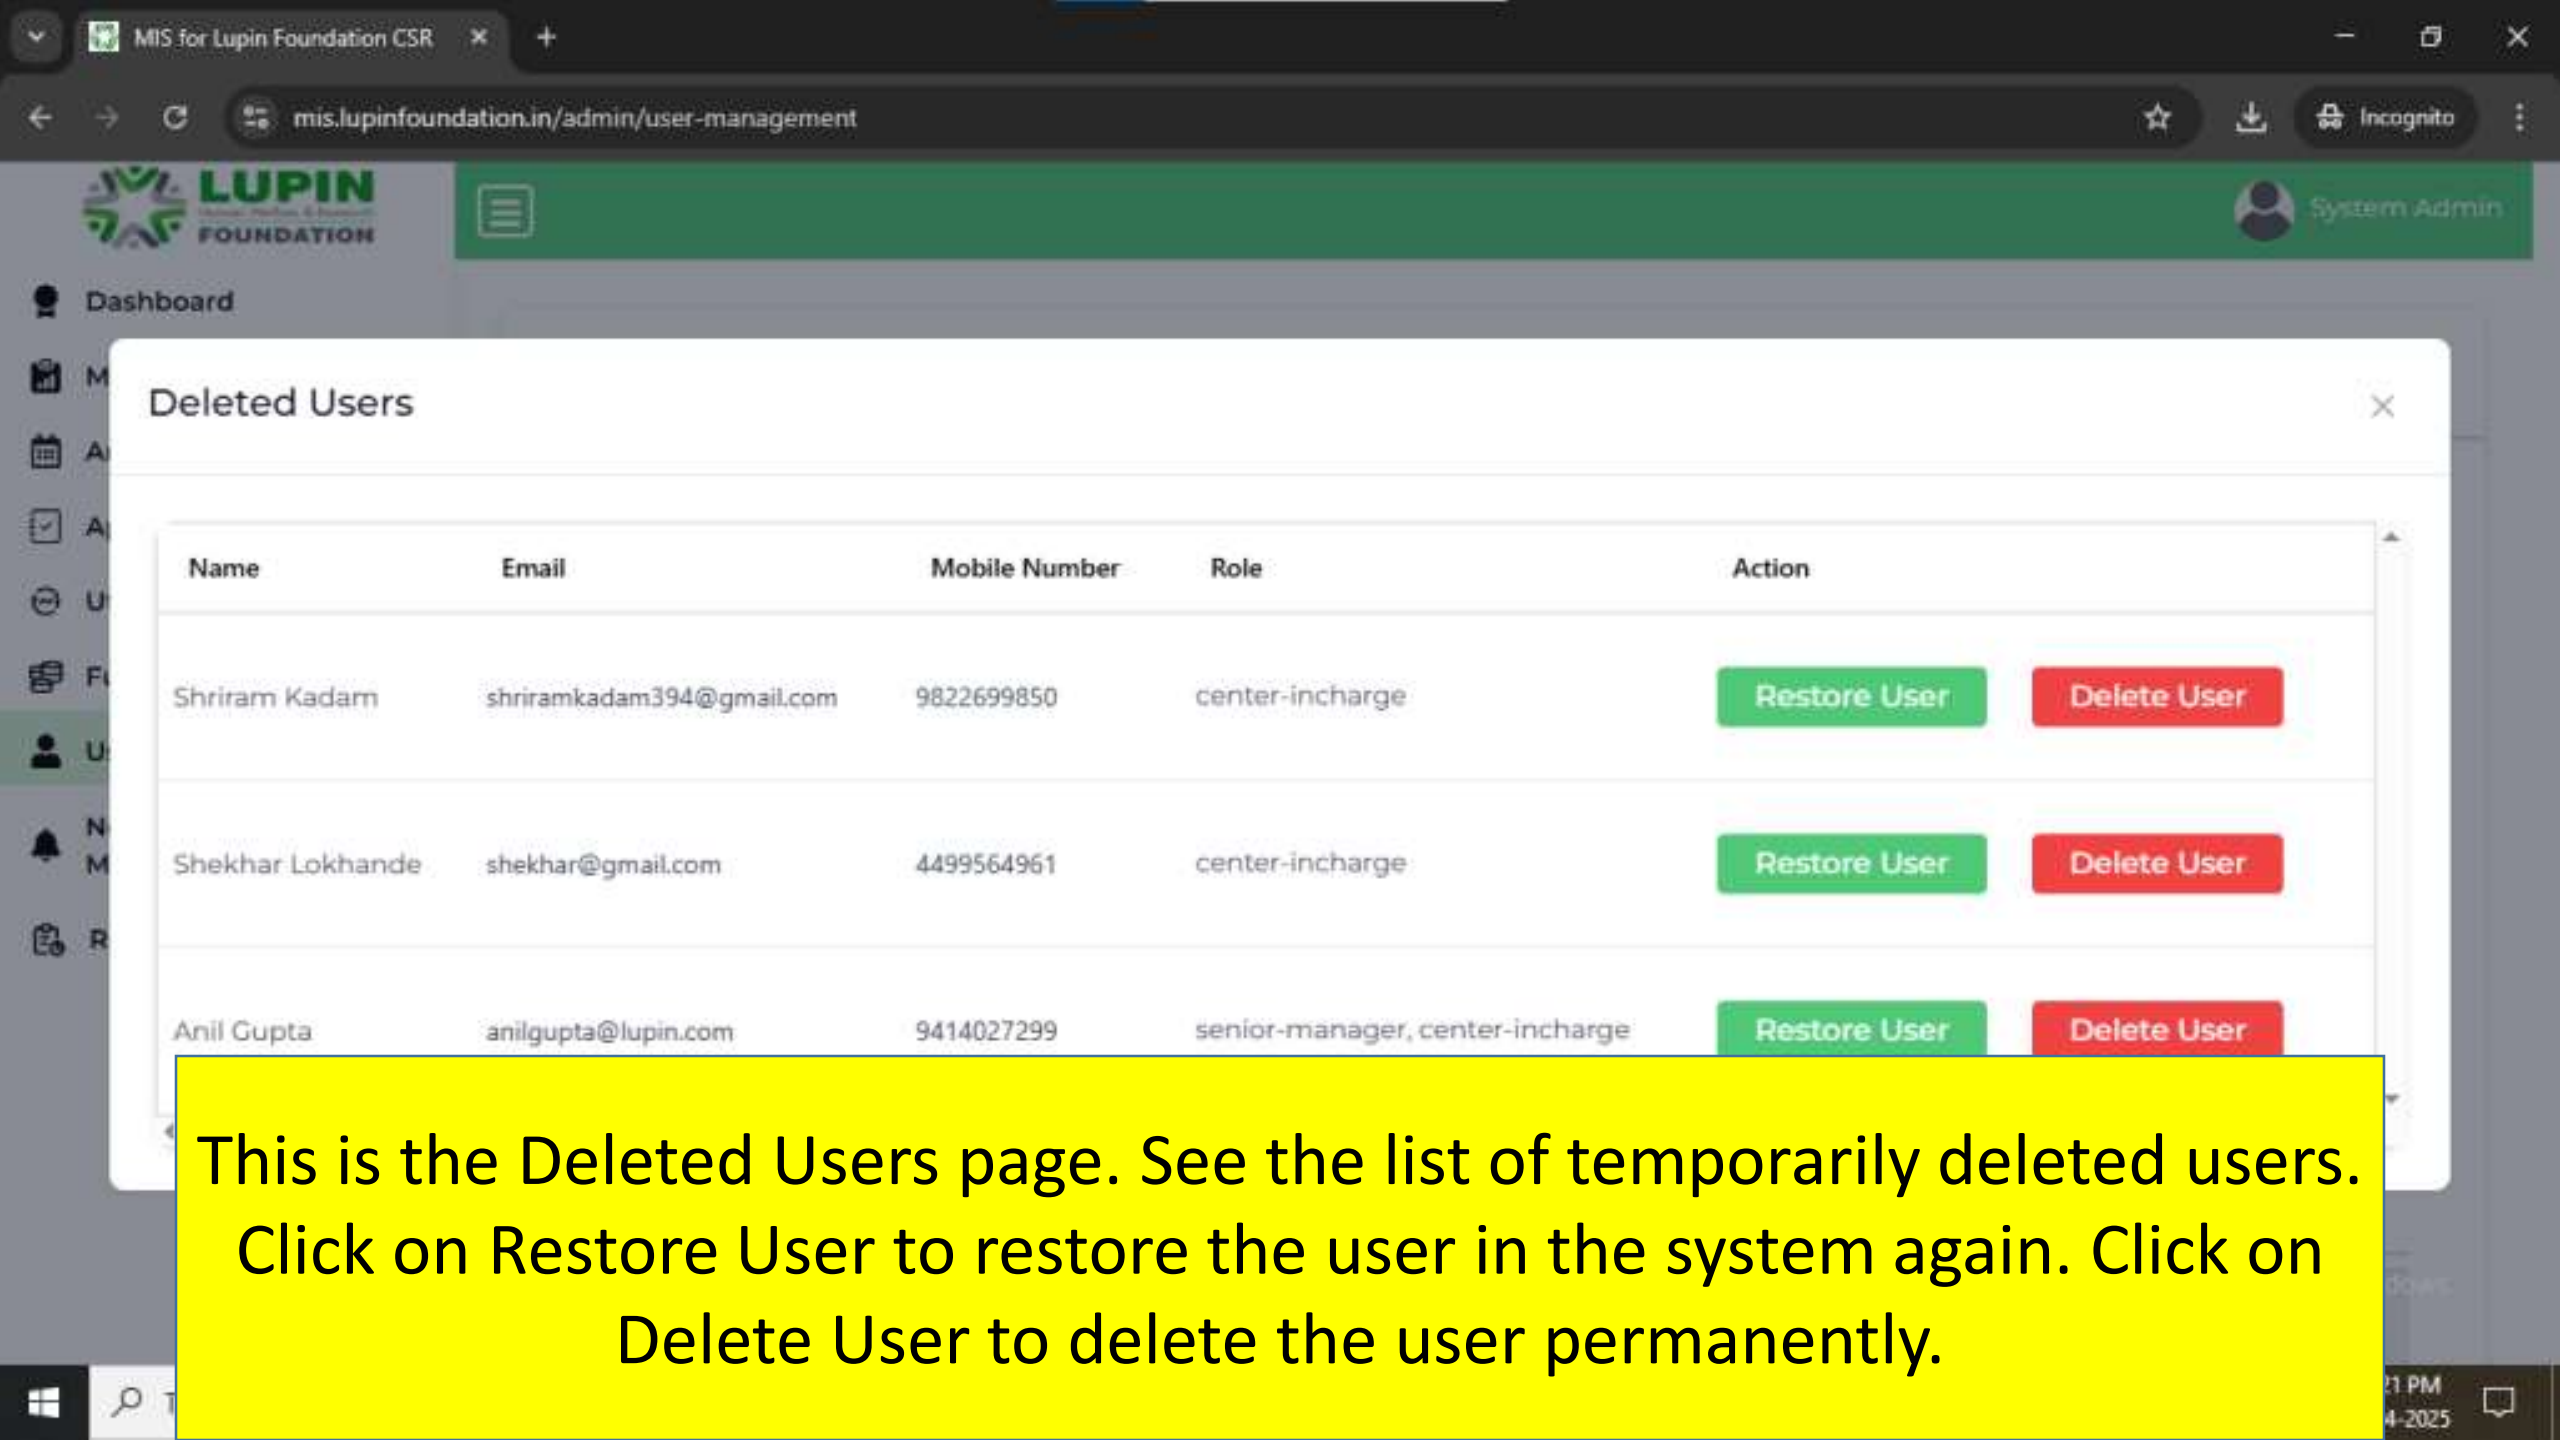
User Management



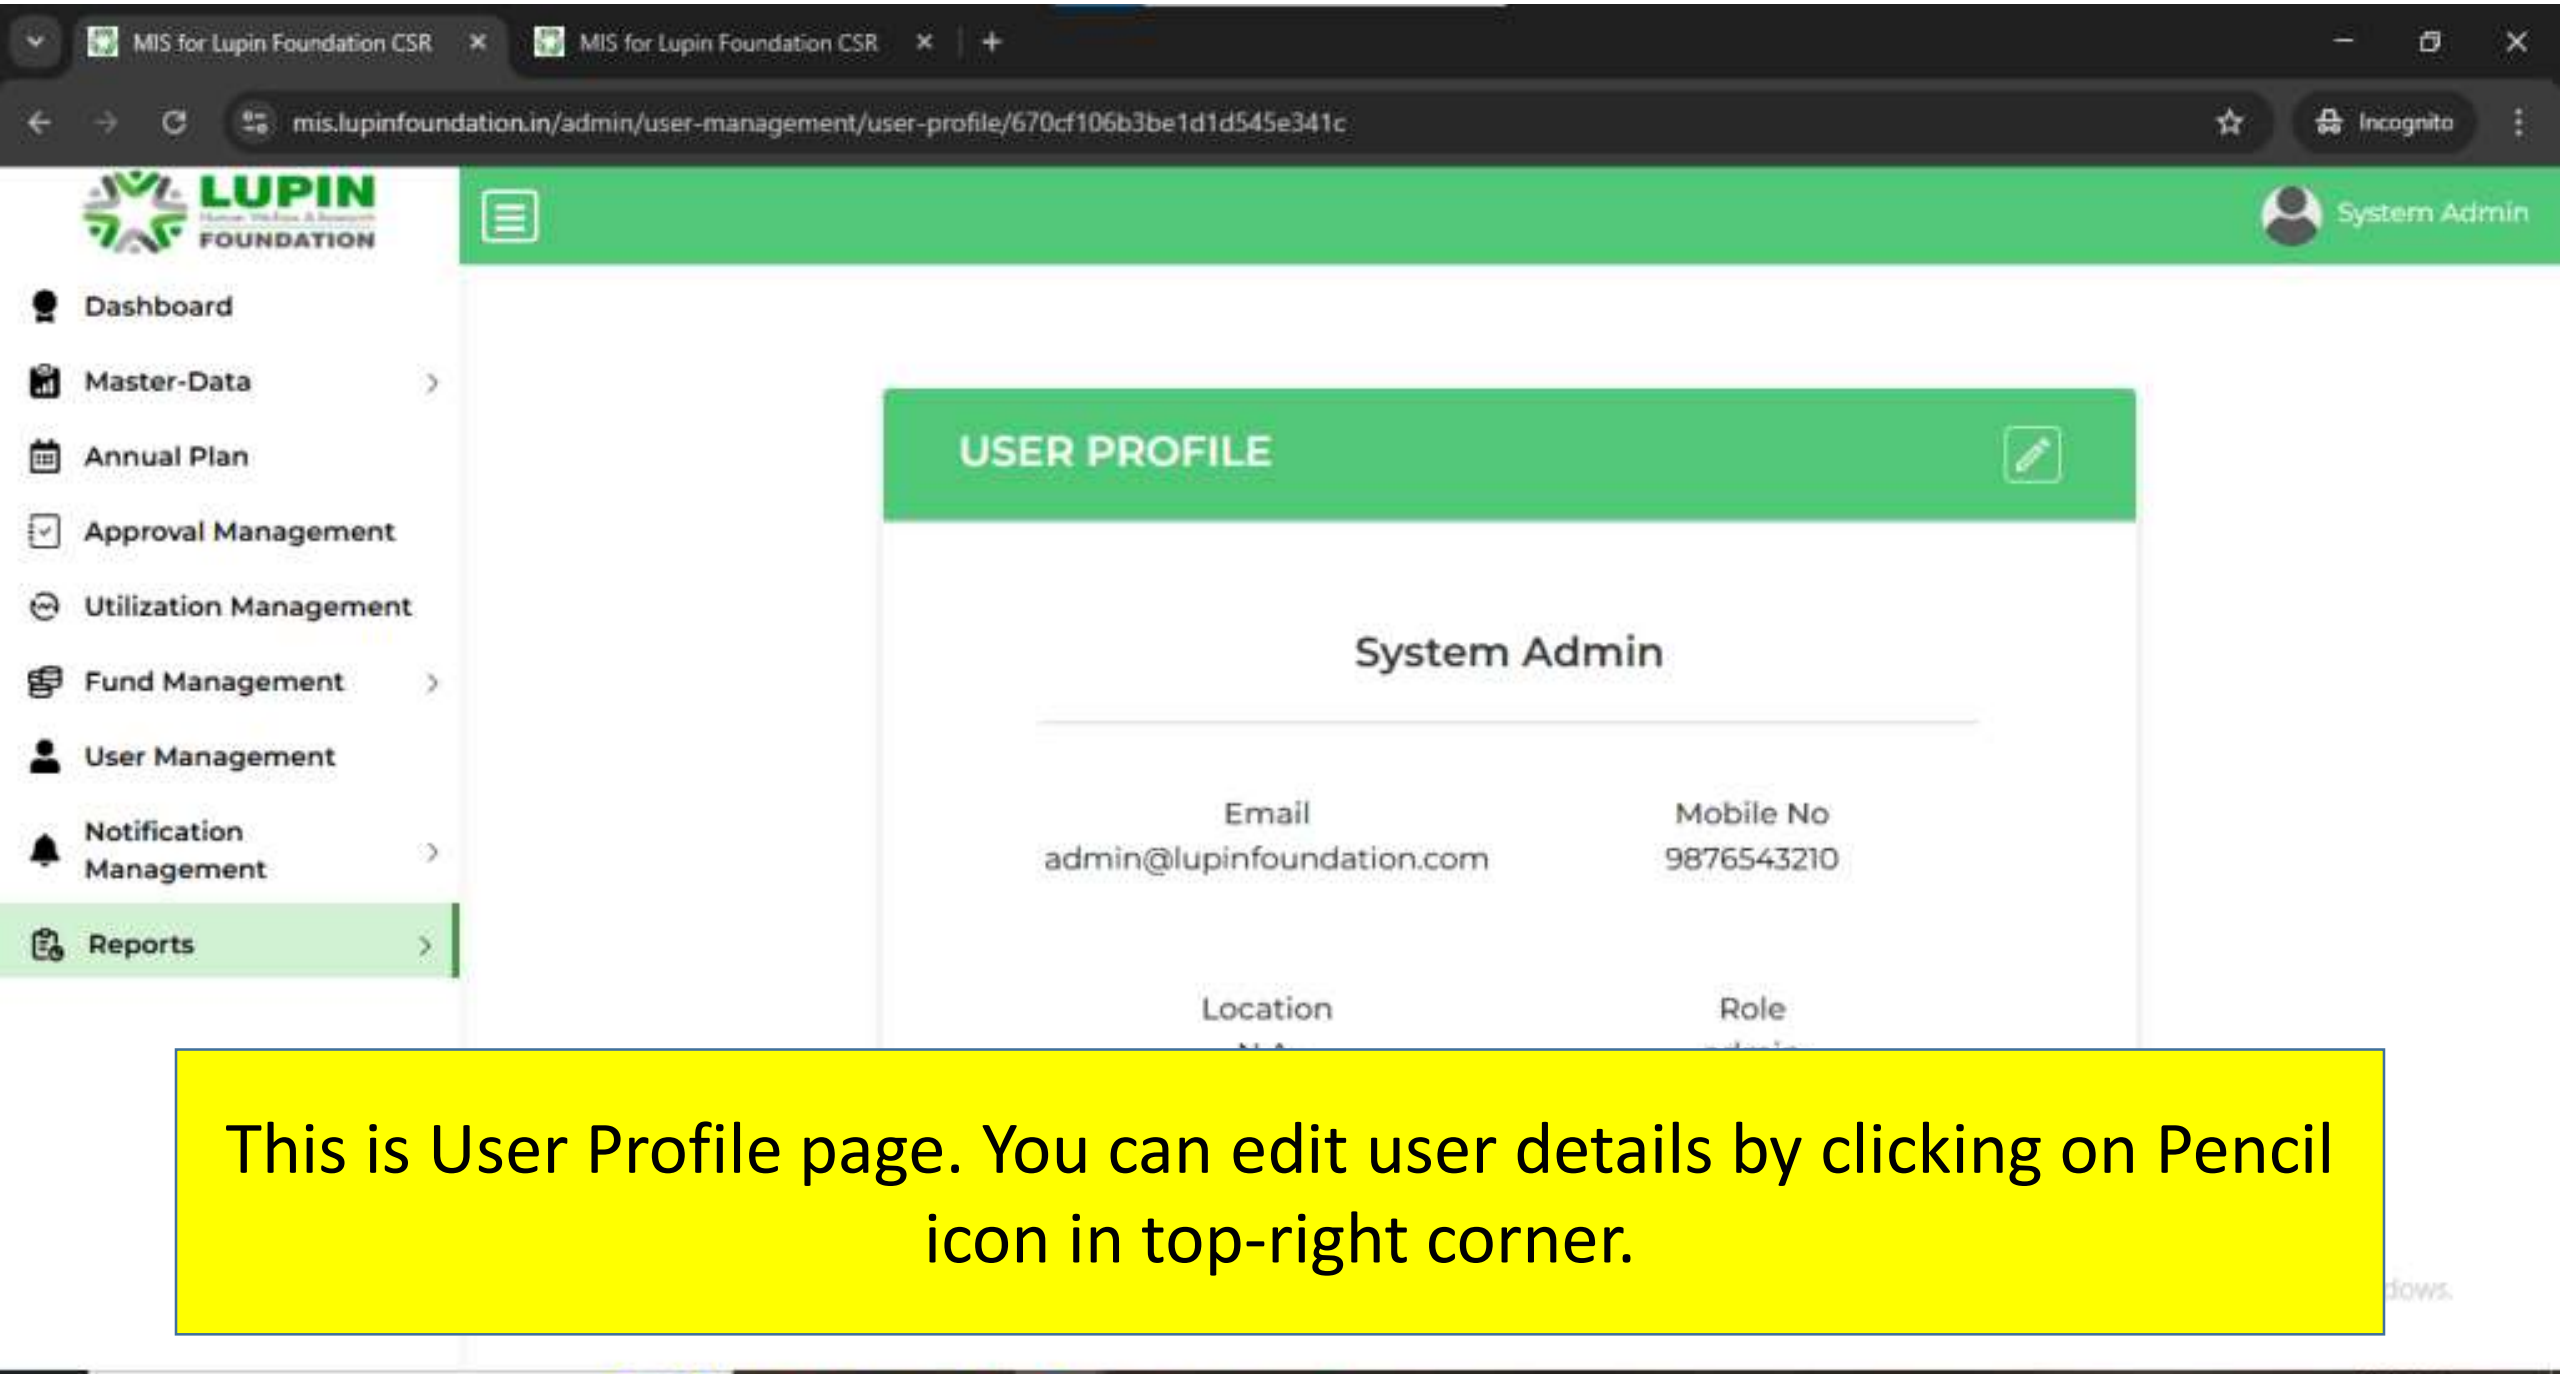
This is User Management page. See the Users List along with their details. Click on Add User to Create a New User. Click on Deleted Users to see the list of Deleted Users. Select user and perform action or see different users after adding filters.



This is Create User page. Fill data of the user which you want to add in the system, assign the correct roles and click on Submit.

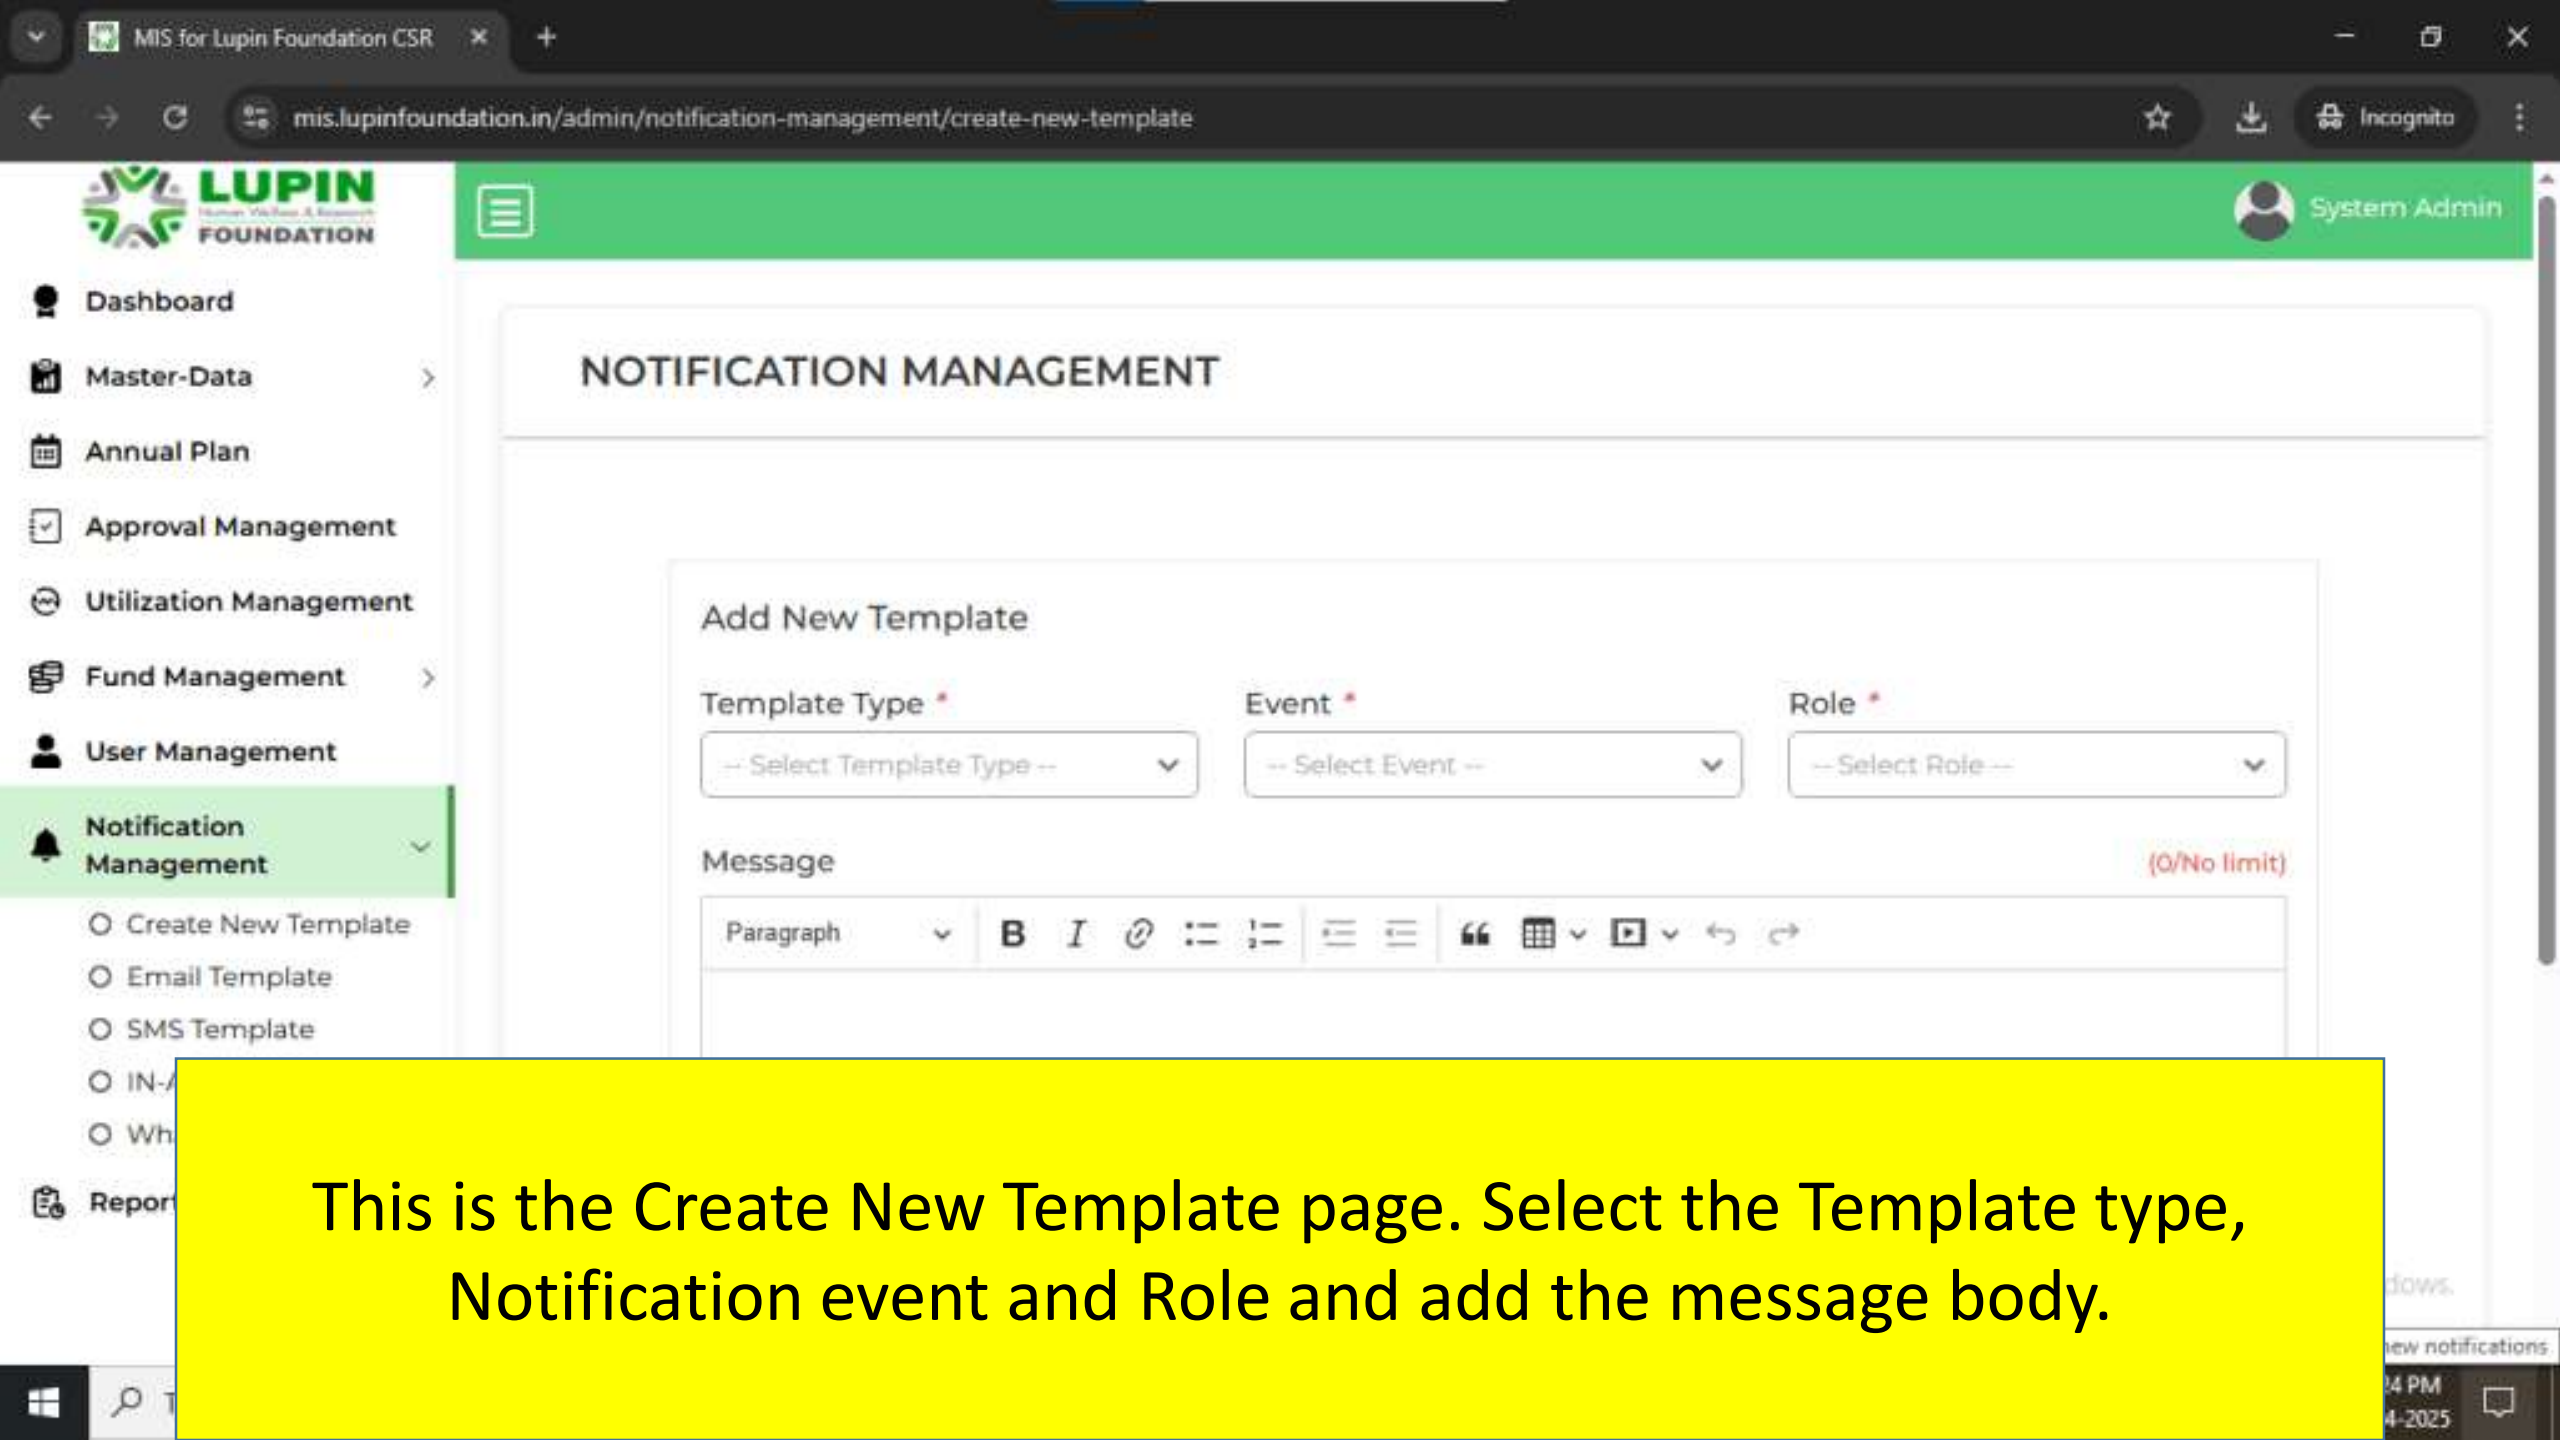


This is the Deleted Users page. See the list of temporarily deleted users. Click on Restore User to restore the user in the system again. Click on Delete User to delete the user permanently.

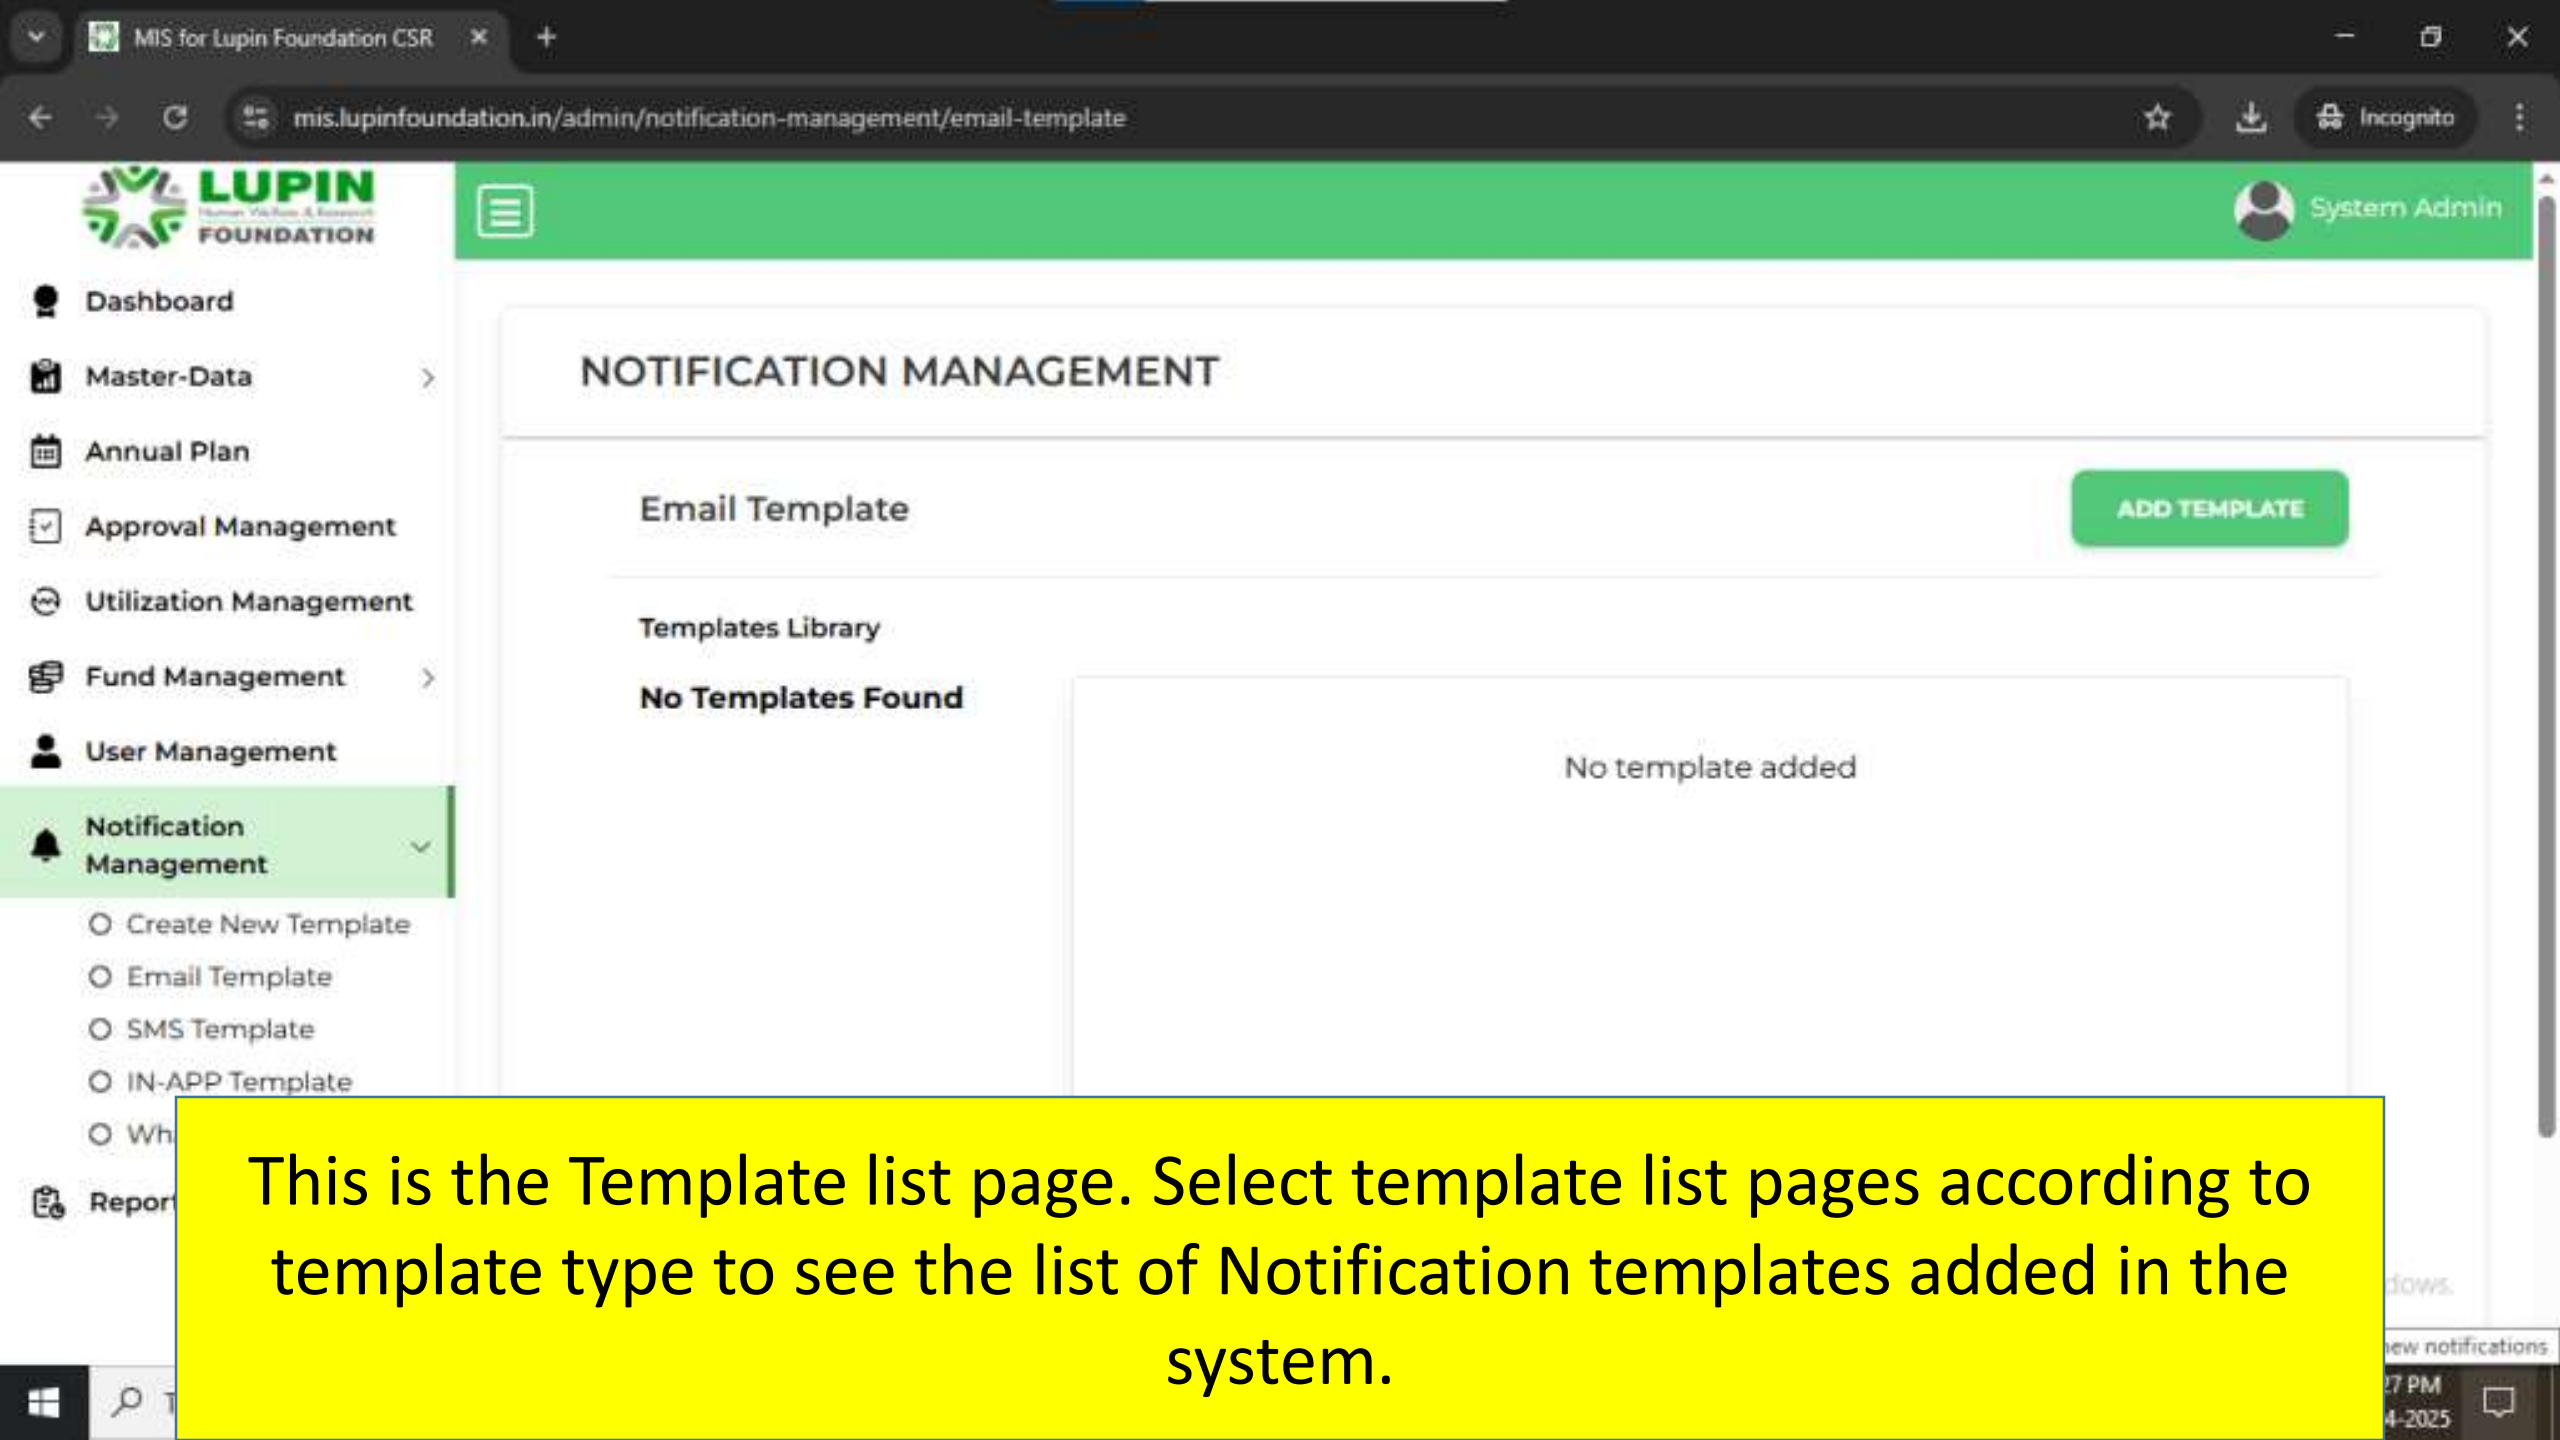


This is User Profile page. You can edit user details by clicking on Pencil icon in top-right corner.

Notification Management

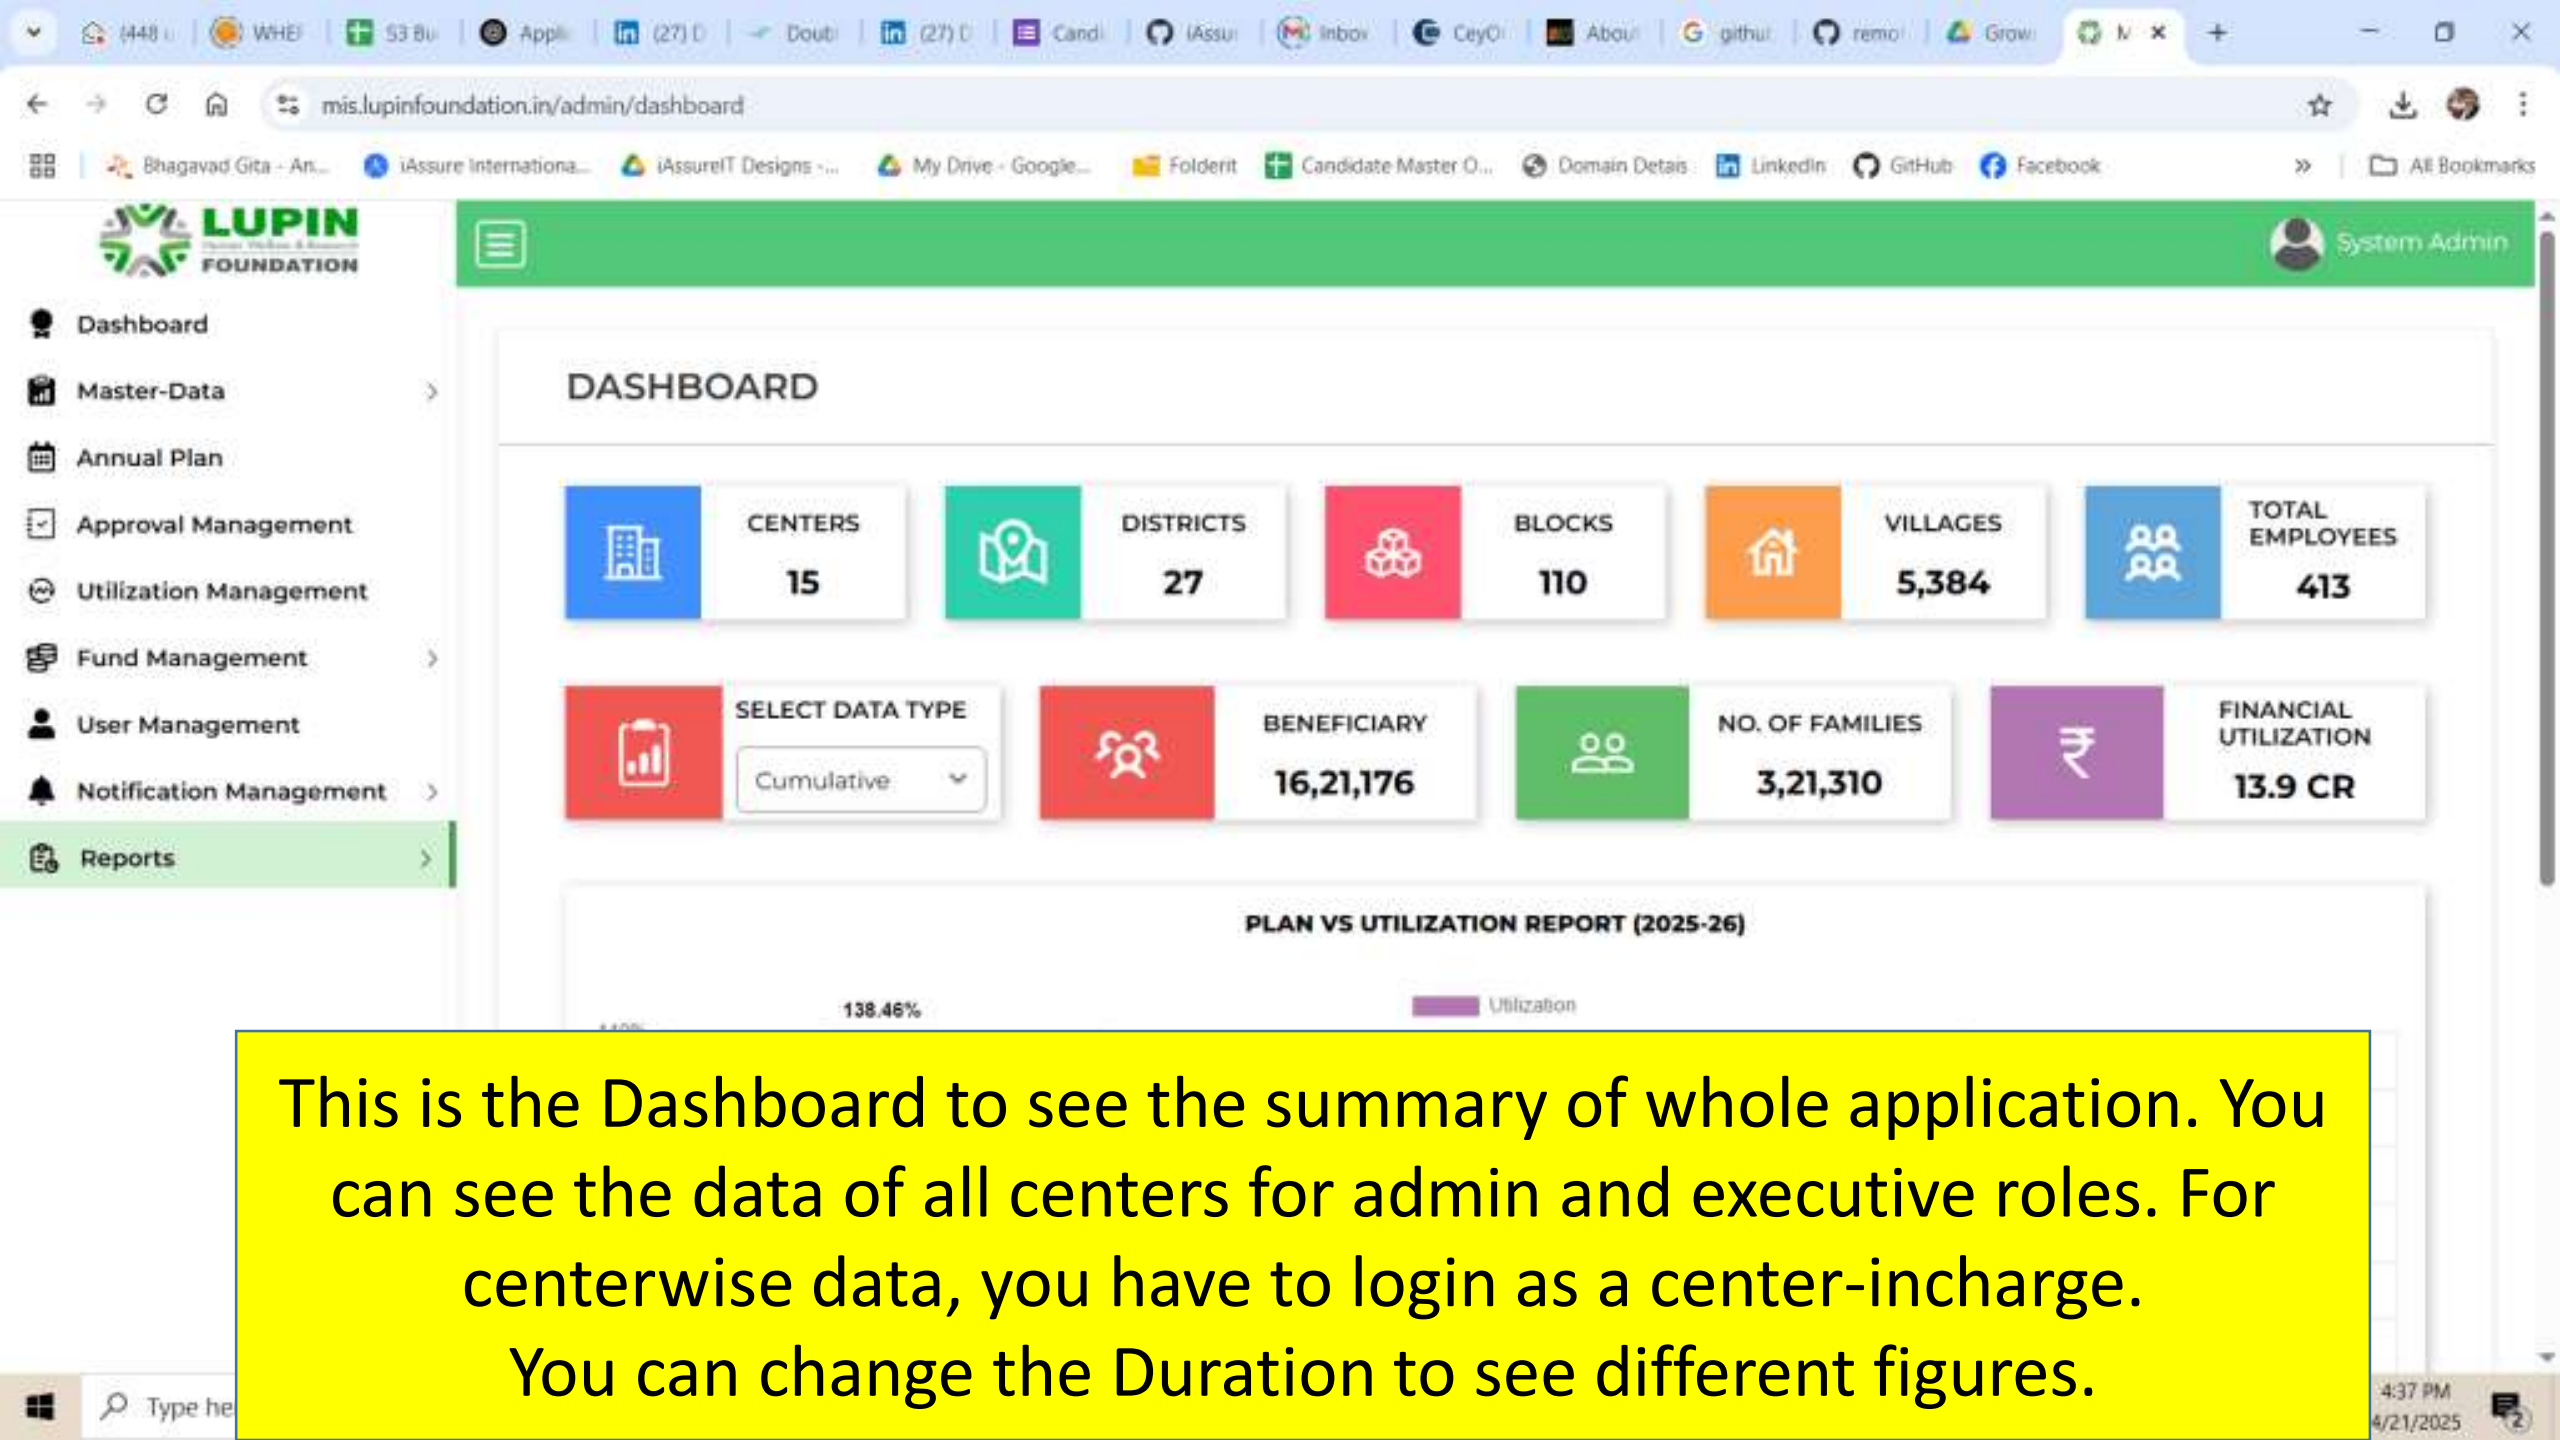


This is the Create New Template page. Select the Template type, Notification event and Role and add the message body.



This is the Template list page. Select template list pages according to template type to see the list of Notification templates added in the system.

Dashboard



This is the Dashboard to see the summary of whole application. You can see the data of all centers for admin and executive roles. For centerwise data, you have to login as a center-incharge.
You can change the Duration to see different figures.
